KRIBBLES

Notwithstanding there is a difference of some hundred pounds between Ed. Cochems and Hunter Leach, they have changed places. Leach is now president of the Breakfast club and Ed isn't. Hunter has a lot more displacement than Ed, but the retiring president made such a remarkable official record that he cannot be submerged by avoirdupois. Ed is like a cork. He rides the waves as gallantly and gracefully as an ocean liner. So far I have avoided a direct encounter with Leach. Long distance argument is the better part of valor. I've finally found out what a telephone is good for.

Dick Bird goes north. Some said Seattle, some said Portland, and some refused to say anything. There trickles through my private info department the news that he may bring home a new boat, so you may expect to hear him singing, "Sailing, sailing, over the deep blue sea." I apologize for not finding out whether Dick is a basso profundo, a high lyric, tenor, or just a baritone.

Official notices have made their appearance that the Fourth of July will be celebrated on the fifth of July, which is not in keeping with the traditions of the signatories of the Declaration of Independence, but let us be thankful that it is still being celebrated. More power to it, and if America doesn't get some starch in her ascension spine there is danger that the day may come when there won't be any Fourth of July.

Inquiring friend wants to know how the Boy Scouts got away without me. Well, I can tell him. They only had ten cars.

Fred Schweitzer moved. In the mix-up he lost a hair brush, but he hasn't convinced me he needs one. Fred is partial to a brush rather rough so that when he rubs it over his cranium he can feel it and get the glow. One misfortune calls for solitude. In this case two solitudes. So Fred now finds he has two brushes, different colors, to harmonize with the color scheme of the new home. I haven't yet found out the color of his hair—if any. The brushes were a Father's Day gift.

And then there was the fellow in the law enforcement division of the state who had been in the navy and never got sea sick, but when he took a deep sea fishing trip with a couple of friends, well, either the friends or the sea made him sick, or else he was mistaken about not getting sick when he was in the navy.

You can leave your engine running when you park the car at the curb, but it's a violation of the traffic laws, if that means anything to you, and it probably doesn't or else you wouldn't leave the engine running. However, it is annoying to the tenant, and sooner or later, if you persist in doing so, will result in a call from the man who writes the tickets. And what you pay the judge would buy a lot of gasoline. It's your car, but my comment.

I'll Tell You--

By BOB BURNS

The Parent-Teachers association has brought about a wonderful understanding between the parents, the teachers and the pupils. When I was a boy, the parents understood only one side and that was the children's. The men teachers had to be careful about what boy they whipped because they would probably have to whip the boy's father, too.

I remember one teacher who used to pull my right ear when I was unruly, but I was afraid to tell papa because of what he might do to the teacher. Finally one day, papa noticed my right ear was red and I had to tell him what had caused it. Papa was furious. With fire in his eyes, he grabbed a pencil and paper and he wrote a note to the teacher. He said, "Dear Sir, I notice you have been pulling my son's right ear until it sticks out an inch and a half further than the other one. It looks terrible! For goodness sakes, pull on the other ear for a while!"

Mystery Warship Shells Spain Coast

Government Thinks Attacking Vessel Foreign;
British and France Plan to Fill in Blockade
Gap in Spanish Waters With Own Battleships

MADRID. (AP)—The Febus (Spanish government) News agency reported today that a mysterious warship, "believed to be foreign," bombarded the Catalan coast last night.

Official communiques of the central government merely reported a "recurrence of insurgent naval activity" off northeastern Spain.

The agency, however, said: "At about 11:30 p. m. Thursday, a warship of great size and with two funnels appeared off Arenys de Mar. This could not have been the Canarias (an insurgent cruiser) which has only one funnel. It is believed she was a foreign ship."

"The ship was heading toward Barcelona. When she came opposite Arenys de Mar she opened the attack, firing 15 shots at the coast and sending up a large number of flares."

"She halted for about 15 minutes, then continued, still firing other shots on the coast. Three houses at Arenys de Mar were destroyed and two others were shattered, but there were no casualties."

BRITAIN, FRANCE TO FILL GAP WITH OWN SHIPS

LONDON. (AP)—Great Britain and France have decided to use their own warships to fill the gap in the "hands off Spain" sea patrol which was created by Italian-German withdrawal, it was learned tonight.

This decision became known after a bitter debate in the house of commons in which Prime Minister Neville Chamberlain and Foreign Secretary Anthony Eden insisted Britain would push the principal of non-intervention in Spain through a 27-power European agreement.

They asked Britain to "keep (See SPAIN, Page 2)

Woman in River Fights Rescuers

CHICAGO. (AP)—Police pulled a young woman from the Chicago river early today despite what they said were desperate efforts by her to prevent a rescue.

The woman said she was Helen O'Connor of Phoenix, Ariz., and had been living on the south side and working in a night club.

Policeman David Mulcrone was treated at a hospital for a bite on the arm he said the woman inflicted to prevent the rescue.

Garage Burglar Goes to Pen

Thomas A. Carson, who was convicted by a jury this week of burglarizing a Tustin garage, was sent to San Quentin penitentiary today by Superior Judge G. K. Scovel.

The jury determined that the burglary was of the second degree, which carries from one to five years in prison as a penalty.

Wally's First Mate Will Re-wed

LOS ANGELES. (AP)—The Los Angeles Herald and Express says it has learned on good authority that Commander Earl Winfield Spencer, first husband of the Duchess of Windsor, the former Wallis Warfield Spencer Simpson, will marry Mrs. Norma Reese Johnson in Southern California next week.

Pension Bomb to Explode

By ROCH BRADSHAW

The Harry Sheppard bomb is going to explode on the floor of the Townsend convention at Riverside tomorrow. Forty Orange County delegates will be there. Some of them will help set off the blast. All of them will recoil from its thunder.

The fuse which the congressman from this district lit June 9, in a letter interpreted as a break with Dr. Townsend, has been burning steadily. Sparks have flown out occasionally as the fire raced along the fuse, and there have been minor flareups. But tomorrow the fire will reach the powder. No one knows what might happen.

Today a frantic letter from Sheppard reached members of the 19th district congressional board of the Townsend movement, indicating that Sheppard believes he is fighting with his back against the wall.

Misinterpreted

He believes his letter of June 9, in which he urged Townsends to drop Townsend's name from their club designations, has been misinterpreted. He intimated that someone in the 19th district is trying to cut his throat in order to get a job. His letter pleaded for a square deal and a chance to be heard.

Sheppard denied he has ambitions to succeed Dr. Townsend as leader of the old folks seeking pensions. He denied he is entering into the fight between Townsend and the twelve who left him flat in Chicago.

"I am not advocating nor have I advocated that Dr. Townsend be abolished or anything else. It is my obligation, my privilege, my pleasure and my intention to present the interests of each and every old gray-haired man and woman in California."

DEATH BALKS JAIL TERM

Death stayed the hand of justice today and ended the worries of a fired old man, twice convicted of arson.

Edward R. Tabor, former Los Angeles and Huntington Beach capitalist, died of a blood clot in his brain at 4:30 a. m. today, his attorney, Milburn Harvey, was notified. The fire before he was judged to have appeared before Judge G. K. Scovel for sentencing.

Tabor's conviction was on charges that he plotted the burning of his own apartment house in Huntington Beach in 1933.

First, John Rose and Henry Eli were convicted of arson for the actual burning, and were sentenced to San Quentin penitentiary.

Angry, they wrote a letter to the district attorney, charging that Tabor had hired them to burn the building. At a second trial, Tabor and Jess Sibley, a tenant in the apartment house, were convicted. Sibley served a short sentence, but Tabor won a new trial. But two months ago he faced the court and a jury. Donald D. Harwood and Milburn Harvey were appointed to defend him free of charge when he said he had no funds. The trial ran for weeks, and ended in conviction.

Case Continued

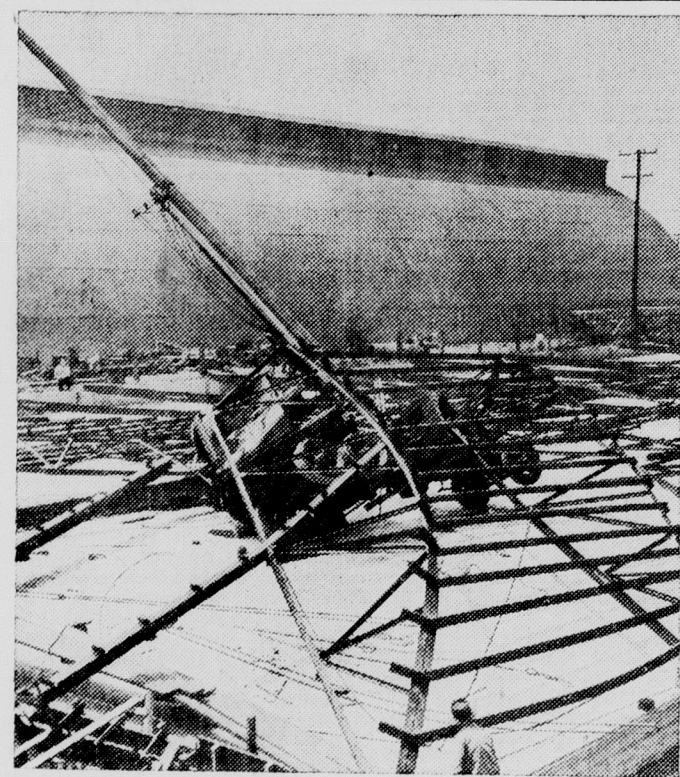

Tabor reportedly suffered a prior stroke two weeks ago on the morning he was to have appeared before Judge Scovel to ask probation and receive his sentence.

He was so ill that Superior Judge H. G. Ames held a special session in the supervisors' board room so that Tabor would not have to climb stairs.

Tabor's death was not known this morning at 9:30 o'clock when he was to have appeared. He had notified Harvey that he would be here. Judge Scovel continued the hearing until this afternoon to determine why Tabor did not attend.

Boy Who Couldn't Swim Saves Girl

WHERE TWO MEN DIED—Two workmen were killed and four others hurt when the steel framework of a big factory building under construction at Belvedere in Los Angeles across the Orange county line collapsed mysteriously while the two men who were killed were maneuvering a steel girder from a crane atop the structure. They were hurled to the ground. This picture shows the wreckage of the structural steel which had been raised to a height of 60 feet and covered an area of 150 by 300 feet.

Extra! Streamline Type Makes Bow Today in Journal

Here it is—the innovation we promised you! A stream-lined newspaper!

Always easier to read, The Journal now becomes even kinder to the eyes through the adoption of streamline headlines and make-up. Look it over.

This newspaper, anxious to provide Orange county with the best, has taken the leadership in journalistic circles by a series of improvements which include four more pages, additional sports, county and society news, a coastline page, as well as larger and more readable type for markets and statistics.

With introduction of streamlining today, The Journal becomes the only daily in Orange county to offer its readers a modern type dress.

CLIVE REACHES JOURNEY'S END

HOLLYWOOD. (AP)—Colin Clive, 37, English stage and screen actor, died at Cedars of Lebanon hospital here today.

He had been seriously ill for several days, with pulmonary and intestinal ailments.

Clive was born Jan. 20, 1900, at St. Malo, France, educated at Stonhurst college and the Royal Military college, Woolwich, Eng., and later at the Royal Academy of Dramatic Arts, London. He was married to Jeanne de Casalis, actress, who survives.

On the stage he starred in "Journey's End," and had the lead in the movie version of the play. He was the star of "Frankenstein," and his last movie work was the heavy in "History Is Made at Night."

The six-foot, black-haired actor was the son of Col. Colin Clive-Grieg. He set out in life to be a soldier, following his father's footsteps, but while he was attending military academy he suffered a broken knee, which sent his hopes of a commission in the British military forces aglimmering.

Homes For Sale In Orange County Offer Values

It's a well-known fact that property values are on the up-grade in Orange county, making good homes harder to find than ever before. But every day in the Journal, under the general classification "Homes For Sale," there are a number of choice selections of all types and descriptions.

Turn to the classified section of today's Journal and read through classification No. 42. You're sure to find just what you have been looking for in the way of a home. Or if you're in the market for a new car, see classification No. 103 for today's best assortment of offers.

PICKETS HALT CITRUS SALE

Union Demands Tie Up
L.A. Growers Exchange

LOS ANGELES. (AP)—Pickets prevented the auctioning today of citrus fruits at the local sales plant of the California Fruit Growers Exchange, a co-operative which handles 80 per cent of the state's crop.

Lee W. Owen, president of the Produce Drivers and Employees Union, said the picketing was begun yesterday and would be continued day and night until the exchange officially recognized the union.

"We have the support of the teamsters union and the longshoremen," said Owen. "If necessary we will prevent the exchange from exporting any of its products through the harbor."

Officials of the exchange said members of its board of directors were being consulted to arrive at a policy to be followed in dealing with the union.

NO THIRD TERM FOR PRESIDENT

NEW YORK. (AP)—The New York Evening Journal said today it had been informed by Senator Robert F. Wagner that President Roosevelt will not seek a third term.

"The President told me so himself just after Governor Earle of Pennsylvania made the third term suggestion," the Journal quoted Senator Wagner as saying.

Wagner said the President informed him in speaking of Earle's statement: "That is one precedent I won't break."

Dickerson Dies At Costa Mesa

John Henry Dickerson, 68, Costa Mesa poultryman, died yesterday at his home, 330 Avocado street.

He is survived by his wife, Mrs. Madge R. Dickerson; a son, John Henry, Jr., and a daughter, Dorothy Ruth Dickerson at home and a brother, Thomas E. Dickerson, Taft.

Funeral services will be held at 1 p. m. tomorrow from the Dixon chapel at Costa Mesa, with the Rev. W. I. Lowe officiating and Spanish War veterans assisting. Burial will be in Rosedale cemetery, Los Angeles.

DEMANDS RE-CHECK

Warner Says Eden Product or Samples
Tampered With; Orders Impounding
Of Cans, and Chemical Analysis

A specter of scandal which has lurked in the shadows, even since the Eden Oil company fight began, stalked boldly into the open today.

It was dragged into daylight by Superior Judge Benjamin F. Warner of San Bernardino, who is here to decide whether the Eden company supplied the county with muddy road oil or whether test samples which started the controversy were "doctored."

Judge Warner introduced the specter late yesterday in these words:

"I don't believe you can escape from the conclusion from the testimony that either someone doctored the oil, or someone doctored the samples," he asserted, ordering all samples impounded and tested by an independent chemist.

"I don't know of a more despicable thing than to do either of those things. One is strictly criminal and I think the other is too."

"The district attorney should set loose all the forces at his command to see if there isn't something criminal in this case."

To Probe Further

Thus he brought to a temporary halt the Eden company's suit to collect \$1729.70 for road oil furnished to the county in September, October and November, 1936, and the county's counter suit which charges the oil contained large amounts of water and sediment.

Judge Warner, who came here from his bench in San Bernardino county to try the suit, today proved that he intends to get to the bottom of the dispute which rocked the county during the election campaign of last November.

Supervisor John Mitchell of Garden Grove revealed after the election that it was he who released for publication chemist's reports which showed "samples" of the Eden oil to contain 25 per cent and more of water when specifications called for not more than two per cent.

A political controversy, two arrests, a false arrest suit, a libel suit and several other battles ensued because of the charges and the reference to the fact that Don Jerome, a partner in the Eden firm, was a son of W. C. Jerome, then running for re-election as supervisor.

Both the Eden attorneys, Lew W. Blodgett and Charles Swanner, and the county's attorneys, B. Z. McKinney and District Attorney W. F. Menton, expressed satisfaction at the judge's order for complete tests.

Crude Oil Test

They agreed that the California Institute of Technology laboratories should make the tests and should supervise the making and preparation of samples now held by the road department. They also agreed with Judge Warner that a Los Angeles chemist, under directions of the CalTech laboratory, should obtain samples of Huntington Beach crude oil which is the raw material for the road oil.

Judge Warner suggested that the various lots of oil might be mixed together, then sampled and tested, but indicated he would give (See EDEN OIL, Page 2)

Ask Birth Control In High Schools

PASADENA. (AP)—On record as favoring the teaching of birth control methods in California high schools and establishment of free birth control clinics, delegates to the California Osteopathic association convention returned to their homes today.

By resolution they also urged that dissemination of birth control information be made legal. Coronado was chosen for next year's convention.

More than 500 Legion members attended the affair last year and a larger crowd is expected to attend the pre-convention celebration, which is set for July 17 and 18, Bishop said.

Thomas Riordan, state commander of the Legion, will be present at the celebration here. Dr. V. E. Sheehan has been named chairman of a committee making arrangements for the affair.

Call Men Back to Mills

YOUNGSTOWN, O. (AP)—A "back-to-work" call to 10,000 workers in Youngstown Sheet & Tube's huge Campbell plant was sounded today by W. B. Gillies, vice president of the company. As dynamite explosions boomed a prelude to the re-opening of strike-locked Mahoning Valley Steel mills.

The steel executive announced the "go ahead" move after a conference with civil authorities and national guard officers, mapping strategy to carry out Gov. Martin L. Davey's order for military protection for men who want to return to their jobs.

Mediators Still Busy

As maintenance crews stoked the great open-hearth fires, ready to start the industrial wheels rolling once more, President Roosevelt's federal mediators in Cleveland decided to remain on the job at least until they hear from Bethlehem and Inland steel corporations concerning a proposal made last night for a "man-to-man" peace conference with John L. Lewis' C. I. O.

Republic Steel and the Youngstown Sheet & Tube company, the other two strike-affected concerns in the seven-state labor deadlock, rejected the proposal.

Strikers Protest Guards

Regional leaders of the Committee for Industrial Organization at Cincinnati, sent an appeal today to each of the general city C. I. O. organizations to send a delegation to Columbus tomorrow to protest to Gov. Davey against the use of national guardsmen to reopen steel plants in Northern Ohio.

Telegrams of protest were sent to President Roosevelt, Secretary Perkins and other officials.

The telegram to President Roosevelt protested "the immoral and unwarranted use of the national guardsmen" and asserted "Governor Davey is neglecting his duty as a public official."

On the Johnstown, Pa., front, a projected march of 30,000 miners on the city—announced by C. I. O. leaders—following the lifting of (See STEEL, Page 2)

All Legionnaires of Southern California have been invited to attend the sixth annual pilgrimage of 21st district members of Huntington Beach, Frank N. Bishop, commander of the district, announced today.

Banty Loses Love, Wins Job

HENRYETTA, Okla. (AP)—Billie, a 5-year-old bantam rooster, made his choice between love and a career and was back on the job as an office boy.

His boss, O. T. Hale, explained Billie herds chickens in the company's fowl department, and keeps a sharp lookout in the front office for customers.

When a customer shows up, Billie calls him, Hale said, and when a hen escapes, Billie persuades her to return to her coop.

About 10 days ago, Hale said, love entered Billie's life when Hale brought a sleek brown and white bantam hen to give the rooster "companionship."

"But," said Hale, "Billie immediately forgot all about business. He and the bantam would desert

the office, and right when I needed him, too, so I had to give his 'Missus' away."

Up until the time love entered his life, Hale said, Billie was content to mind the office, stuff his craw with an especially prepared feed. His one dissipation was an occasional visit down the street to a feed store to gobble up any choice morsels that happened to be lying around.

STATE DEMANDS PAYMENT OF COUNTY'S \$612,749 RELIEF DEBT

GAS TAX TO BE LOST

Road Funds Help to Clear Obligation

The state of California will not forgive Orange county its \$612,749.92 debt, incurred for relief purposes during the depression.

And Orange county may not have any state gasoline tax money for road work next year, because it all will be withheld by the state.

There is no way to cancel the obligation, if the state were so minded, officials of the state finance department said today.

Pay January 1

The legislature killed a constitutional amendment during the closing hours of the session, which would have validated transfer of the debt to the state.

As a result, Orange county and 24 other counties which borrowed a total of \$20,000,000 from the unemployment relief bond fund must start paying it back next Jan. 1.

May Be Short

At least part of the money due from each county can be deducted from the gasoline tax apportionment which the state distributes quarterly to the counties. Officials have not determined whether it would be possible to deduct from the apportionment the total amount due yearly.

On the basis of last year's apportionments, Orange county's share would not be sufficient to meet the amount due on the loan, it was pointed out. Los Angeles, San Bernardino, Santa Barbara and San Luis Obispo counties are in the same situation. They would be left without gas tax money for an entire quarter each year.

Punches Sounded Like Rifle Shots

It sounded like shooting to the residents near the old gum factory on the Delhi road. So they called the sheriff.

Quietly approaching the abandoned building, deputies heard loud thuds but no shots. Inside they found six boys with boxing gloves on. They were using the place as a gymnasium.

The boys were surprised, and so were the deputies, who decided it was best to advise discontinuance of the use of the make-shift "gym."

DIDN'T PAY BOARD

M. Van De Grift, 1855 East Anaheim, Long Beach, yesterday began serving a 10-day sentence for violation of the state law which makes it a misdemeanor to fail to pay a board bill. Van De Grift was sentenced in Brea.

SPEEDER JAILED

Joe Yriarte, 127, Orange, Brea, was serving a two and one-half day sentence today after being convicted on a speeding charge in Brea.

Mary, Buddy Wed Saturday There'll Be 6 on Honeymoon

HOLLYWOOD. (P)—Mary Pickford tried on her third wedding dress today. The privileged few who saw her in it, including her secretary and her niece, Miss Gwynne Pickford, said Mary looked "very Mary Pickfordish."

Mary will become Mrs. Charles (Buddy) Rogers a few minutes after 3 o'clock tomorrow afternoon.

The dress, made for Mary in New York, is an "ice blue" crepe. With it, she will wear ice blue suede sandals and long gloves of matching material and color, a small crownless halo hat with a nose veil.

Her husband-to-be, as well as the few gentlemen guests at the wedding, will be formally attired in striped trousers, cutaway coats and top hats.

After the marriage, at the home of friends, there will be a reception at Pickfair. At 10 o'clock, Mr. and Mrs. Rogers will sail on the Lurline for Honolulu. They will be accompanied on their honeymoon by Gwynne, whom Mary adopted; Gwynne's friend, Mary Elisee McCarthy, Beverly Hills socialite; and Mr. and Mrs. Charles Younggreen of Chicago, friends of Rogers. The other Hollywood newlyweds, Jeanette MacDonald and Gene Raymond, will be on the same boat.

The bombings rocked the north-east section of Canton, Ohio. The first blast, said police, ripped out a section of a spur track of the Wheeling and Lake Erie Railroad, leading into the plant of the Republic Steel Corporation.

Explosions at Warren

Two explosions occurred at Warren, Ohio. One, police reported, was near Republic's open hearth plant.

Major R. S. Ursprung, national guard official at Warren, said an apparent attempt was made to bomb an automobile carrying national guardsmen.

John Owens, Ohio C. I. O. leader and director of the steel strike in Ohio, sent word along the scattered picket lines ordering strikers to hold their ground and refuse to return.

"LIAR" MURRAY CALLS GIRDLER A "NIT-WIT"

PITTSBURGH. (P)—Chairman Philip Murray of the Steel Workers Organizing Committee called Tom Girdler a nit-wit today, in reply to the Republic Steel Corporation chairman's assertion at Washington yesterday that Murray was a "liar."

"I do not see any reason for engaging in a public controversy with a nit-wit," Murray said.

BUS CRASH INJURES NINE

SPRINGFIELD, Mo. (P)—Nine passengers were injured, none seriously, when a cross-country bus sideswiped a telephone pole on a business street here today.

R. E. Schmidt of East St. Louis, Ill., was the most seriously injured. Others injured include M. Peralta, Hollywood, Calif., cuts on the left arm and leg and chest; Mrs. John Bunting, Oakland, Calif., a sprained ankle; J. P. Ballard, Phoenix, Ariz., bruised on the right shoulder and knee; J. C. McGeath, Austin, Texas, cut on the right knee.

The driver, William Flynn, St. Louis, an employee of the All-American Bus Lines, Inc., of Chicago, escaped injury.

afraid the bird wanted to use it for a nest. Gee, I'm glad that they haven't any squirrels.

An Orange service club in getting rid of their president really wanted to get rid of him, so they brought in that final receptacle, put him in it, celebrated with bagpipe and other instruments incapable of furnishing any soft music, and had a hilarious time disposing of the president who, during the year, had inflicted considerable punishment upon the membership by imposing fines and anathemas. I sent word to forget him, but some of the boys weakened and he is still with us—and them.

This collective bargaining system seems to me that one side collects the bargain and the other fellow has to take it. No permanent satisfaction can come from any controversy unless the adjustment is fair and equitable to both parties. Force and violence is no contribution or solution to labor difficulties.

And then there was the occasion which Fred Timm remembers about a cartoonist en route from Bloomington to Chicago who stopped at a small garage to have some repairs made to a car. Needed two new spring leaves. The garage man did not have them in stock and said it would take three days to get 'em. The customer couldn't wait that long. So he handed the garage man a card and when he left Andy Gump and he wouldn't have to wait that long as he would take the leaves out of a stock car and in about two hours the work was complete. During the interim the cartoonist entertained two boys by drawing cartoons all over the garage floor, and when he left Andy Gump and the 344 were spread the length of the building. It was Sidney Smith, the famous creator of the Gump comic strips.

woman who voted for me . . . when the time comes that I can't function in that capacity, I don't belong in congress and will return home without the invitation of any aspiring politicians in the 19th district," he wrote.

Desperate Situation

Sheppard said his sole interest in promoting the general welfare act which would put the Townsend program into action. He said what he has done was necessary in a desperate congressional situation and his acts were aimed solely at promoting the Townsend program.

But the fire is racing relentlessly along the fuse that Harry Sheppard lit with that June 9 letter. Despite his pleas, the spark will reach the powder and explode tomorrow on the floor of the 19th district convention.

Townsendites have openly declared that Sheppard deserted Dr. Townsend when he urged substituting the name General Welfare clubs for Townsend clubs. His break with Townsend came over the Roosevelt supreme court revision plan which Townsend attacked. Sheppard is a Democrat and he defended that plan.

Open Debate

The issue which will explode the Sheppard bomb tomorrow is whether the congressman shall be allowed to speak at a Chautauqua in Riverside July 4, whether he shall be allowed to explain his acts and defend himself.

Sheppard was billed to speak at the Chautauqua.

"The matter will come to an open debate on the floor," said J. H. Walsh, 19th district organizer for the Townsend corporation. "That will be the dominant issue of the convention."

Sheppard Defenders

The question finally will be decided on the floor or by the district congressional board, Walsh said.

S. L. Wingert of San Bernardino, chairman of the board, will lead the fight for Sheppard. He will be supported by H. F. Kenny of Santa Ana and C. F. Alexander of Corona, board members, according to Walsh. The board has nine members.

Walsh explained that the majority of Townsendites believed they have been betrayed. Some, however, feel that Sheppard should be allowed the opportunity to explain and defend himself.

His opponents answer that they believe he has violated terms of the constitution of the Townsend corporation, that thereby he has disqualified himself as an official Townsend speaker and that he has forfeited his right to speak.

Newspapers Accused

Sheppard accused the newspapers of aiding what he called a misinterpretation of his June 9 letter.

"I am not responsible for what the newspapers say any more than you gentlemen are," he wrote.

News releases from Washington have indicated that Sheppard's friends are grooming him to lead the new General Welfare organization being promoted to displace the Townsend group.—Sheppard's last letter did not specifically deny this.

cool," over the protests of liberals like David Lloyd George, who cried that Italy and Germany had made the non-intervention idea a "farce" and suggested it might be a good idea to scrap it.

Eden Brands Russia

Eden took occasion to say that Soviet Russia, too, had sent "very large quantities of arms to help government Spain. Germany and Italy are on the insurgent side."

The Franco-British move to extend the supervisory warship Cordon by themselves means they will take over patrolling the eastern, or government-held coast of Spain, where Germany and Italy left off.

The Cordon is intended to help keep foreign arms ships from delivering their cargoes in Spain. Germany and Italy washed their hands of the patrol because the Spanish government's armed forces bombed their ships and allegedly tried to torpedo the German cruiser Leipzig. Italo-Germans still are massed in the Mediterranean, however.

"Keep Cool," He Urges

France and Great Britain intend to notify the non-intervention committee of their plan at its next meeting. Italy and Germany still are on the non-intervention committee.

Chamberlain, in urging Britain to "keep cool," promised renewed efforts to keep Spain's war from exploding over Europe.

Lloyd George, picking up the "keep cool" phrase, said what was needed was "stout hearts," and flayed the government for not baring Italo-German intentions, and added:

"Any fish can keep a cool head."

Three Courses Urged

Lloyd George suggested three possible courses:

1. Enforce the non-intervention pact;

2. Enforce the agreement barring new foreign fighters from Spain;

3. Wind up the "fraudulent pact" and let the opposing Spanish forces buy their material where they can get it."

At one point in the debate, conservatives and liberals all but came to blows.

ITALY, GERMANY MAY FIGHT FILLING OF GAP

ROME. (P)—An Italian official declared tonight both Italy and Germany would look with disfavor on any independent steps to fill the gap in the "hands off Spain" sea patrol left by their withdrawal from the international fleet.

Because both nations remained on the neutrality committee when they withdrew their warships from its fleet, the spokesman said they must be consulted before any steps are taken to reorganize the naval patrol or effect the recall of foreign fighters from Spain.

GERMANY'S CONFIDENCE IN POLICY SHAKEN

BERLIN. (P)—An official spokesman said today Germany's confidence in a policy of non-intervention in the Spanish civil war has been shaken so severely that Great Britain and France will have to give positive proof of their impartiality to restore the reich's faith.

Quizzed Witnesses

Throughout the trial Judge Warner dispensed with many formalities and allowed testimony to which attorneys objected, stating that he would consider it for "what it was worth." In addition, he asked many questions himself of the witnesses.

In his decision to order the tests, announced after 5 p. m. yesterday and elaborated upon this morning, he stated his position:

"There are only two theories. One is that the plaintiff (Eden Refining company) doctored the oil, or that someone doctored the samples. I do not intend to be imposed upon by anyone who would do either of those things."

Resents Deception

"If there is anything I do not like, it is for the court to be deceived."

Later he added:

"I have no implication at the moment whether the oil or the samples were doctored, but if neither was doctored, the chemists couldn't have found 25 per cent water in the samples." He added that he was not casting reflections upon the attorneys representing either side.

Judge Warner ordered A. A. Beard, county highway superintendent, to keep all the samples under lock and key until they are delivered under court order to the chemists. He also asked Beard to mark them himself in order to designate which came from the Santa Ana road yard, the Garden Grove road yard, the Fullerton road yard, and those that were taken directly to the county road department office. Each group will be given a separate test.

Mistake or Fraud?

"I have made these statements," Judge Warner told the attorneys, "to let each of you see the situation as it appears to me. I always prefer to believe there was a mistake rather than a fraud."

Vernon Davis, superintendent of the Eden Refining company plant, was called as a rebuttal witness today to reiterate his statement that he tested the oil regularly by a viscosity method and that all the oil was made in the same way. He said none contained more than 2 per cent water.

On cross-examination, however, he said he did not keep records of his tests. He said other types

of oil, including fuel oil, had been sold to buyers other than the county and had been delivered through the loading tank used for the county road oil.

Road Damage

A. C. Fulmore, Riverside county engineer, testified yesterday that of the 19 roads alleged to have been damaged by Eden oil, 16 were in good condition and the remainder were bad because of alkali soil. Beard testified that some roads built in 1934 and 1935 are better than more recent roads laid with Eden oil.

C. B. Mitchell, road superintendent in Supervisor Mitchell's district, said he had received complaints on the quality of oil as early as April, 1936, and had told Davis about it and had also notified the road department engineer.

During the Russian revolution more than 1,080,000,000 acres of land belonging to landowners were acquired by the peasantry.

DISASTER 'ARMY' READY FOR EMERGENCY

BOMB SIGNAL CALLS 200

Legion Force Ready For Quick Work

If disaster strikes Orange county, Orange county will be prepared.

That assurance was renewed today as the American Legion disaster relief committee checked results of its annual emergency drill.

Three aerial bombs fired from a mortar at the American Legion hall shortly before 6 p. m. yesterday brought more than 150 volunteers to the hall in 10 minutes, ready to give service for the fire, flood or quake that the bombs might have meant.

Many Others Ready
Altogether more than 200 persons registered at the hall as a result of the call, and scores of others reported by telephone that they were ready to aid.

Among those who arrived in the first 10 minutes were three squads of police in cars, representatives of all public utilities, every veterans' organization in the county and auxiliaries of the same. One ambulance arrived, and another ambulance twice notified the committee that its ambulance was on a call but would be available upon its return.

State-Wide Program
Boy Scouts and Sons of the Legion were among the organizations reporting. Several tow cars were made available.

Emergency drills were started several years ago as the result of experience during the earthquake of 1933 and now are part of the state-wide program of the American Legion.

Legion officials, however, do not claim credit for the system, and today expressed appreciation at the unselfish and thorough cooperation of all service organizations and cooperating groups and individuals.

Unusual Blossom Is Plant's Own Death Warrant

One of Nature's rarest floral sights—that of a century plant sending out the blossom which will bring its own death—was afforded Santa Ana today at the F. C. Blauer nursery, 1306 North Spurgeon street.

From the clump of barbed spears which form the plant's base shot up a tall, straight stalk, more than 20 feet in height. It has commenced sending outside branches with buds which in time will open.

F. C. Blauer, owner of the nursery, said today that anyone wishing to see the plant is welcome. It is expected that it will take three or four weeks for the plant to come into full bloom, and that the blossoms will remain most of the summer.

Plant experts say that the century plant blooms but once, and then the entire plant dies. The plant now blooming has been at the nursery for five years, but was very old when it was acquired.

Texas Served By Seven Governors In Two Years

AUSTIN, Tex. (AP)—Texas is pondering a claim to some sort of record in number of governors within a two-year period.

Seven persons have served as chief executive since Jan. 1, 1935. They were Former Governor Miriam A. Ferguson, Gov. James V. Allred, Lt. Gov. Walter F. Woodul and State Senators Ken M. Regan, Wilbourne B. Collier, John S. Redditt and Tom DeBerry.

A principal reason for the numerous "governors" was that the occupant of the position of president pro tempore of the senate changed so often. A different senator is named for each session of the legislature and each period between sessions. Four legislative sessions have been held during the current biennium.

Allred did not succeed Mrs. Ferguson until after Jan. 1, 1935. On four occasions, both he and the lieutenant governor have been out of the state at the same time, leaving the governor's job to the president pro tempore of the senate.

JAYSEE ALUMNI ELECT GRIGG

Otto Grigg was elected president of the Alumni association of Santa Ana Junior college last night. He will replace Jack Gould as head of the association next year.

The meeting was held last night in the Young Women's Christian association rooms. Jack Gould presided.

Others elected were Florence Turner, vice president; Albert Greene, secretary; and Marian Hawk, treasurer. Retiring officers are Gould, president; Katherine Chapman, vice president; Helen Weissman, secretary, and Ray St. Clair, treasurer. Mrs. Violet Bartholomew is permanent secretary.

Plans were made to hold an alumni banquet to precede the jaysee Associated Student Christmas dinner in December.

Bruce Mayhugh played a trumpet solo with Audrey Pieper's accompanist. John Henderson gave a reading.

Campbell to Aid Elks at Needles

District Deputy G. P. Campbell, of the Benevolent Protective Order of Elks, has gone to Needles, where he will assist tomorrow in the installation of a lodge with about 60 members. He was accompanied by L. A. Lewis of Los Angeles, president of the state association, and George Smith of San Jose, past state president.

Today Exalted Ruler Harold Brown of the Santa Ana lodge, William Garvin, loyal knight, Ridley Smith, leading knight, and E. R. Majors, secretary, left for Needles to be present at the installation. The new lodge will be listed as No. 1608, which will make 13 lodges in the California south district.

Police Reports

Ed Mendey, 1823 West First street, was arrested by police yesterday at the corner of Fairview and South Main streets and charged with drunken driving. He was examined by a physician, who pronounced him "very intoxicated." He was put in the county jail.

Karl J. Christ, 526 North Clark street, Orange, was arrested yesterday on a bench warrant from Police Judge John Mitchell's court. Appearing in court, he pleaded guilty to driving with glaring headlights, and paid a \$3 fine for his violation and failure to appear.

Cap Pistol Hunt For Birds Halted By Patrolmen

"Hurry up," the lady called. "Boys are killing birds."

Police went running to Bristol and Washington streets. There they found some boys, all right. And they had pistols. "Let's see those guns," the officers demanded. They were cap pistols. And what's more, the caps were all gone.

The two officers looked at each other. Then at the frightened boys. "Well, don't let us catch you doing any real shooting of birds," one of them said as he handed back the pistols. "Because then we'd have to come and pick you up."

TAX INQUIRY FUNDS ASKED

WASHINGTON. (AP)—President Roosevelt recommended in a letter to Speaker Bankhead today that congress appropriate \$50,000 for expenses of the senate-house committee investigating tax evasion and avoidance.

The money would remain available until June 30, 1938, for salaries and other expenses of any persons the committee might employ.

Chairman Doughton (D., N. C.) of the joint committee said today resignation of internal revenue agents to handle private tax cases was "almost a scandal."

Senator Lyle Rollette (Prog., Wis.) calling the turnover of bureau employees "one of the real problems in the struggle of the government to collect its taxes," asked for the list yesterday.

Present statutes, Rep. Cooper (D., Tenn.) said, forbid individuals to practice tax law before the treasury within two years after they have given up departmental jobs. But they still can use the knowledge they have gained with the treasury, he added, and let a partner handle actual dealings with the department.

Investigation of tax dodging will resume Tuesday. Explanations will be given of individual cases in which the treasury contends taxes

REBELS SWEEP RIVALS ASIDE

HENDAYE, Franco-Spanish Border. (AP)—Spanish insurgents asserted today they had swept all government forces from the west bank of the Nervion river, west of conquered Bilbao.

They captured the coastal settlement of Giervana, at the river's mouth, and several neighboring villages without much resistance, a communique said.

The government admitted in Madrid that Generalissimo Francisco Franco's men dominated much of the industrial section northwest of Bilbao and on the Nervion's west bank.

A government statement substantiated an insurgent assertion that many government troops had deserted to the insurgent ranks as Franco's soldiers pressed west for Bilbao toward Santander, 40 miles away.

have been reduced through personal holding companies. Revenue Collector Guy Helvering named nearly 60 persons yesterday, contending they had used that method. He did not charge it was illegal.

Some study may be given, Doughton indicated, to boosting the personal holding company levies and eliminating or reducing some of the credits now allowed by law.

Tubbs Answers Women Who Called Frozen Fruit 'Juicy'

Santa Ana housewives disagree with Agricultural Commissioner D. W. Tubbs on the frozen fruit question—but Tubbs has an answer for them.

Tubbs inspected oranges bought at random by The Journal from half a dozen Santa Ana markets and said they were frozen beyond the limit allowed by law. He said they would not pass for shipment and should not have been sold to the market.

The Journal thought it would be pertinent to find out what Santa Ana women thought about the oranges they were getting. The result—seven out of eight had no complaint to make about the fruit. And Tubbs has an answer for them.

Not Enough Juice
There is no denying that the oranges bought by The Journal and inspected by Tubbs had juice in them. Tubbs doesn't attempt to deny it. But he does contend there was not enough juice.

The ordinary housewife, buying a dozen of those oranges, would be rather burned up at finding dry sections in them where the frost had hit. She wouldn't like the fact that many of the oranges very plainly were breaking down and drying up.

But there she would be wanting orange juice. And there would be a certain amount of juice in the fruit. It would take time and trouble to complain about the situation. Rather than go to that trouble she would use the juice, or what there was of it, and take her loss.

Here's the Law
That's part of Tubbs' answer. Here's some more of it: In the first place the law says that out

Think Poison Killed Boxer

NEW ORLEANS. (AP)—August Wright, 28, known here as a boxer under the name of Daniel Ryan, died today of what Robert Potts, Jr., assistant coroner, said "might" have been poisoning.

Wright, police said, staggered to the home of a friend last night and said: "I'm sick; my stomach hurts."

Potts said he found traces of "what may have been poison" in Wright's stomach.

Townsend News, Views

By
WALTER R. ROBB

C. A. Holloway, secretary of the Santa Ana club No. 9, announces that there will be a meeting of the club at his home, 7:30 this evening. The location is 2027 Cypress street. He urges the membership to be present. Holloway will represent the club as delegate in the convention being held in Riverside, Saturday, June 26, 1937 at 1:30 p. m. J. N. Wire, who has been president of Club 9 for some time, has moved with his family to Garden Grove. J. T. Phillips and wife, of this club, will attend the convention tomorrow. Phillips is alternate delegate.

The La Habra club, which meets each Monday evening, at its last meeting passed a group of resolutions. They were presented to the consideration of the club by George Varnum and unanimously adopted. The resolutions have been neatly arranged and printed and a copy of same is being forwarded to all the Townsend clubs of the 19th district. The resolutions are designated as "Resolutions of Loyalty to Dr. Townsend and the Townsend clubs and the Townsend General Welfare Plan." They follow:

Resolved, by La Habra Townsend Club No. 1:

1. That we deplore all efforts or suggestions to change the name or national leadership of Townsend clubs.

2. That La Habra Townsend club No. 1 believes that all rivalries in the management of clubs, corporations or other agencies purporting to forward the realization of the economic and humanitarian ideals of Dr. Francis E. Townsend should at once cease, and all efforts concentrated on the passage at the earliest date of the Townsend general welfare act, H. R. 4199.

3. That we favor the re-election of all congressmen who are favorable to, vote for and loyally support the Townsend plan in all its stages toward ultimate enactment, and we favor the displacement of all congressmen opposing it, and the election in their places of more intelligent congressmen.

4. That we urge all Townsend clubs to initiate an immediate campaign for new, and especially younger members, and for the education of those not interested, to the end that the full strength of the Townsend movement may be evidenced at all elections for both houses of congress.

5. That our representatives to the congressional district convention at Riverside, June 26, 1937, be instructed to present the above resolutions for approval and adoption.

(Signed) E. E. Proud, President.
Joyce Fullinwider, Secretary.

The writer thinks it his duty to again call attention to the program being put on in Santa Ana Townsend hall at 7:30 tonight by Maranda, well known to radio audiences because of her impersonations of a country pastor when she was connected with the Beverly Hill Billies. Bring a dime with you for admittance and hear this capable lady entertainer.

The 1937 edition of the Townsend club Manual outlines the methods which are obligatory upon those Townsend club delegates assembled in a district Townsend convention as will be true in Riverside tomorrow. For the purpose of enlightening those in advance who do not have a copy of the club manual, he will devote the rest of tonight's column to quotations from the manual so that all delegates will be informed of their privileges in the convention.

Provision is made for the "convention to be called to order by the congressional district manager or other persons with written authority from the congressional district board of national headquarters, acting as temporary chairman." It will be noted that the temporary chairman will merely call the convention to order and remain in charge only until a per-

TRIPOLI NEW NAVAL BASE

Italy Seeks Control Of Sea Off Libya

ROME. (AP)—Premier Benito Mussolini, as minister of marine, and King Vittorio Emanuele signed a decree late yesterday making Tripoli the base of a new naval center commanding sea passage to the Suez Canal.

The new naval center will be commanded by an admiral with authority over a squadron strong enough to control the seaways along the entire Libyan coast, the route of Great Britain's "empire life line."

The Tripoli base will be one of several centers comprising an Italian naval administration to be known as the "superior command."

TAX RATE AID TO CHARITY

NEW YORK. (AP)—Rising tax rates are decreasing the cost of charitable gifts in the United States, a lawyer told a convention of the American Library Association yesterday.

Asserting the tax on a \$1,000 estate has been raised 2100 per cent in the last 10 years, Ralph E. Lum, former president of the New Jersey Bar Association, said: "Strangely enough, the very height of present tax rates make gifts for charitable literary and educational purposes increasingly attractive."

Lum said the clause making such gifts—up to 15 per cent of an individual's annual net income—tax exempt was one factor responsible for the "saving."

U.S. TO PAY TAX TO FILIPINOS

WASHINGTON. (AP)—The state department announced the treasury was making arrangements to transfer to the Philippine commonwealth \$500,000, representing net proceeds of processing taxes collected up to July 1, 1937, on Philippine coconut oil.

The action was taken at the request of Manuel L. Quezon, President of the Philippine commonwealth, who told American government officials that the sum would be devoted to the purchase of all large landed estates in the islands for re-sale in small parcels to tenants, for other island improvements and for "the readjustment of Philippine economy as the joint committee of American and Philippine experts now in session here may decide."

Looks Like No Beer for Cops

OKLAHOMA CITY (AP)—Beer—the 3.2 kind—is legal in Oklahoma, but highway patrolmen had better not let Public Safety Commissioner J. M. Gentry catch them drinking it in public.

The patrolmen may down their "suds" at home, Gentry says, but here again he added a knowing smile. The patrolmen are subject to call 24 hours a day, and woe to the man who shows up smelling of liquor.

manent chairman has been elected by the convention.

After the convention has been opened by the temporary chairman in charge, he will direct a roll call of the delegates and alternates. Each delegate and alternate must be provided with written credentials from their clubs signed by the club president and secretary. After the delegates have been seated in the convention, the temporary chairman will appoint a credentials committee and a nominating committee of five members each. The committees then retire. The credentials committee qualifies delegates and the nominating committee shall bring in nominations for a convention chairman and secretary. A recess follows during the deliberations of the committees. Space will not permit saying more except that nominations may also be made from the floor. None but delegates can place candidates in nomination for convention officers or district board members.

FINDINGS—Sheriff Ralph Elser of Mahoning County, Ohio, was given a court order directing him to search among loyal workers in the Republic Steel plant at Youngstown for arms. Some of the objects he found he exhibits above—a make-believe machine gun, toy shotguns and field glasses made from soda bottles taped together. CIO union strikers obtained the order.

Golden hills . . . tawny eucalyptus . . . grey-green pines . . . yellow beach and turquoise sea . . . a blazing sun, broad-leaved papaya . . . Sunday traffic to the beach . . . light upon a breaking wave . . . a marsh of white stars . . . beans green-penciled lines on warm brown earth . . . locust trees . . . a dying sycamore . . . fog on a mustard bed . . . corn . . . rhythm of a lyptus grove . . . Old Town and San Diego.

Thus my preface to the ninth Southern California Annual continuing through August at the Fine Arts Gallery, San Diego.

Admiration for Reginald Poland, gallery director, and his capable assistants, continues to grow upon viewing the fresh, and new, appearance of the galleries.

The moderns have come downstairs. Japanese Prints and a stirring Graphic Arts display join them in superseding the San Diego schools exhibit seen there six weeks ago.

And in the upper gallery there is one of the most important coast shows on record. Important for its young people whose names stand for accomplishment in the creative field.

There's Dan Lutz' prize-winner that really is a prize-winner, Ross Dickinson's "From the Fields."

Swiggett and Bartlett (I can't help it) contribute their decorative painting.

Tom Craig has a spiritual "Solitude" not far from Jean Goodwin's "Walnut Tree in April."

Paul Sample's oil, "Early Morning, Randsburg," seems better than his prize winning watercolor.

Charles Daniels brings modern portraits out of the stone ages with his luminous "Yuriko."

In the water-colors, Myrton Purkiss has a very delightful "Wind-Washed."

Words for Millard Sheets more or less failing me, I can only urge your seeing his "Point Star Light."

Dan Dickey takes life less seriously with "Texas Honey-moon."

This, then, the ninth Southern California Annual. It calls for your inspection!

If you haven't yet become acquainted with the Spanish Village (the San Diego Art Guild's project also within Balboa park), you will want to make a point of seeing it when you go south.

Seriously considered for wrecking, the Village was "saved" by the Art Guild, is being put on a more or less permanent basis. Studios and shops are rented to the craftsmen and artists at a very low price to encourage them in working together, calls for the establishment of a creative center.

Current showing is lithographs and drawings from the California Project of Art groups that maintains the standards set for these mediums.

San Francisco's Arthur Murphy is star with his bridge lithographs, "Bridge Pylon" being especially compelling.

Alexander Fleming runs a close

second with his customarily splendid performance.

Clement's "Death of an Idea," "Reconsideration of Time and Space" are the first surrealist lithography I had seen.

I liked Paul Tyler's "Solitude," the close blending of color Conrad Buff had used in his "Flowering Cactus."

Nina Ullberg reveals an especial decorative ability in her "Water-Carrier."

In looking back over the whole show the fact that almost every one of them could be used in home decoration stands out. How much better to have an original than the empty-th copy when they are so near the same price, provided price alone were the consideration!

Concrete evidence of the ability of local junior college art students and the Fine Arts Press comes once again with the release of Del Amo, the J. C. annual.

Marked by "unusual" features throughout, along with the excellent typography, the division pages are, I think, the most taking.

June Holman's portrayal of "College-Before and After" is especially clever.

Credit, too, to Frances Egge and Tom Williams for the instruction producing so fine a work. It will rate high in any competition!

A star or two for showmanship to Siegel-Anthel Galleries out Sunset boulevard, Hollywood!

Realizing the emphasis recently given the French moderns by New Yorkers, they Wednesday opened a Bonnard to Vlamnick show that blankets the field.

There's a Picasso, six Modiglianis, a manager of Utrillos in a gallery replete with masters of the modern school.

Timely for early summer seeing, it's one of the things to include in sightseeing for visitors. Recommended!

Ammonia Fumes Break Up Candy Shop Picket Line

FLINT, Mich. (AP)—Dr. R. Gordon Brain is a psychiatrist, but it was by accident, not by study, that he discovered an effective means of dispersing a picket line.

As he was passing a picketed candy shop, Dr. Brain accidentally dropped a bottle of ammonia. The bottle broke and the fumes not only scattered the pickets, but entered the shop and temporarily drove out the clerks.

Washington. (AP)—The house completed congressional action yesterday on legislation to extend the Civilian Conservation Corps for three years by agreeing to several senate amendments. The measure now goes to the White House.

POWER BILLS WIN FAVOR

WASHINGTON. (AP)—The house rivers and harbors committee yesterday sent to congress a bill setting up administrative machinery for the Columbia river Bonneville power and navigation project and providing for a survey of Boulder Dam power rates.

"It is a good bill," said Chairman Joseph Mansfield (D-Tex.) after the committee voted out the measure which is a composite of four other Bonneville measures, under consideration for months.

"I will ask for a rule for consideration of the measure as early as possible."

Representatives of the Colorado river basin states, who fought among themselves over the Boulder rider to the Bonneville measure, termed the bill "satisfactory." Californians said they felt confident a study of rates would show Boulder Dam contractors were being discriminated against.

Upper Colorado river basin states representatives said the study of Boulder rates authorized in the bill "will at least give us a chance to be heard."

Before finally approving the bill the committee killed a paragraph providing for the establishment of uniform interest rates on amortization charges on all federal projects.

TREASURE GIFT SHOP OPENS

Helen Tietjen announces the opening here of a new and enlarged gift shop at 506 North Main street. It will be called the Treasure Isle Gift shop formerly called Lockwood's Library and Gift shop. For the grand opening this Monday Miss Tietjen announces in Monday's Journal many outstanding values.

Of special interest will be, says Miss Tietjen, a large collection of rental books, which already enjoys from the former location a wide following. Limited quantities on all articles will assure the buyers of more select gifts.

E. R. Kolbe Family To Visit Oregon

Mr. and Mrs. E. R. Kolbe of 504 East Seventeenth street, Santa Ana, and their three daughters, Betty, Dorothy and Ann, left last night for Ontario, Ore., where they will spend their vacation with Mrs. Kolbe's mother, Mrs. Mary Morris, and other relatives.

While there they will visit with Mrs. Kolbe's sisters, Mrs. Theodore Moore, Mrs. Nellie Powell and Mrs. Herman Towne. They are expected to return to Santa Ana about July 10.

CITY TO PAY U.S. FOR DAM NOW

PASADENA. (AP)—City directors have decided to pay \$400,000 in a lump sum to the United States, paying off the Boulder dam power plant contract, in order to save more than \$90,000 in interest.

Deliver Twins Caesarian Way

LOS ANGELES. (AP)—A Caesarian operation for the delivery of twins, which doctors described as one of the rarest types of surgery, brought two boys into the world yesterday.

They were born to Mrs. Max Lasky, wife of a taxicab company employee. She and the babies are in a normal condition today, attendants said.

Dr. Elmer Anderson, the attending physician, said the ratio of such an operation to normal births is a million to one.

CCC Extension Bill to F. D. R.

WASHINGTON. (AP)—The house completed congressional action yesterday on legislation to extend the Civilian Conservation Corps for three years by agreeing to several senate amendments. The measure now goes to the White House.

Webb Rules Merriam
May Slash, Then Sign

SAN FRANCISCO. (AP)—Attorney General U. S. Webb has ruled today that Gov. Frank F. Merriam may reduce the amount of appropriations in bills approved by the legislature and approve them in the reduced amount.

The opinion was asked by Gov. Merriam in a letter which said he had found it necessary to veto appropriations but some could be approved for smaller amounts.

Gov. Merriam mentioned especially the \$150,000 appropriation on which he wished authority to reduce to \$50,000. Webb did not reveal the identity of the bill.

The attorney general quoted the constitution to this effect: "In any appropriation bill approved by the legislature the governor may reduce or eliminate any one or more items of appropriation of money, while approving other portions of the bill."

Webb held this provision included any bill containing an item of appropriation. His opinion concluded:

"It is therefore my view that in the instance suggested above as well as in many other instances of like character, you would be privileged, if you so desire, to reduce the amount set by the legislature to such amount as you deem proper and approve the bill in such reduced amount."

REQUEST BASED ON HYPOTHETICAL MEASURE

SACRAMENTO. (AP)—Gov. Merriam said his request to Attorney General Webb for an opinion as to his right to reduce appropriations and then approve bills for the lessened amount was predicated on a hypothetical measure.

The venereal disease control bill carries an appropriation of \$150,000 and could be reduced by the governor to \$50,000, under the ruling, the governor said, but he did not have in mind any particular bill, merely the question of authority to reduce sums designated in appropriation bills.

There are pending before the governor dozens of bills providing for special appropriations. The total provided, if approved by him, would approximate \$42,000,000.

These include the appropriation of more than a million and a half additional for the University of California; several million for state institutions and other millions for almost every use of governmental agencies.

Same Customer Opens, Closes Barber Shop

CORNING, N. Y. (AP)—Clark H. Newcomb's career as a barber shop proprietor ended just as it began 36 years ago, with Edmund L. Dininny in the chair.

Dininny was Newcomb's first customer when, on an April day in 1900, the latter, hopefully, opened the doors of his own shop. A few nights ago, by prearrangement, Dininny waited until all the other patrons had left and closed himself into Newcomb's barber chair to be the last customer.

When Dininny left, Newcomb announced he had stopped barbering to devote his time henceforth to conducting a pet shop.

No License and No Minister At This Wedding

INDIANAPOLIS. (AP)—There will be no license and no minister for the wedding of Miss Elizabeth L. Coale and John W. Parker of Westtown, Pa., at Westfield, near here, tonight.

They will take almost forgotten vows of traditional orthodox Friends Church ceremony. An 1853 statute approved the rites which require neither license nor minister.

They will sign a certificate of marriage issued by the church, and a worship period will close the service.

Donations Swell Italy's Surplus

ROME. (AP)—Italy's fiscal year will close June 30 with a surplus of just over \$50,000,000, due to profits from gold given the country by public-spirited subjects and to revaluation of gold reserves when the lira was devalued.

The surplus, according to Secretary of the Treasury Thaon di Revel, will be used for "burdens of an exceptional nature." Well-informed circles say these "burdens" fall in Italy's rearmament program designed to keep proportional step with Britain.

Man Wins Stork Race Over Crash

GREENVILLE, Ohio. (AP)—A mere automobile accident couldn't keep Frank Miley of Gettysburg from winning a race with the stork.

The auto he was driving behind one taking Mrs. Miley to a hospital was stopped by a collision. Undaunted despite severe lacerations Miley "thumbed a ride" and reached the hospital in time to greet his newly-born son.

RAIN AT EL CENTRO

NEW BEAUTY STUDIO OPENS

Another new business establishment is opening in Santa Ana. On Saturday evening Reno's new studio of hair designing will open at its newly decorated building at 715 North Main. The proprietors are members of the Los Angeles Coiffeurs Guild.

Reno is pleased with the prospects for the future of Santa Ana and is determined to bring an institution to this city which will bring credit to the city and his concern.

The public is invited to visit the studio on its opening evening and see the style demonstrations which will be given by staff members.

Several well known operators will compose the staff of this new business, headed by Miss Beryl Hoban, resident manager. The operators are Lyle Hanson, Miss Grace Taylor, Frank Taylor and Reno.

F. R. APPROVES HOUSING BILL

WASHINGTON. (AP)—Senator Wagner (D-N. Y.) announced after a White House conference that he and President Roosevelt had "practically reached an agreement" on low cost housing legislation.

He said he would begin immediately to draft a new feature to his bill in accordance with the agreement. The new feature, which he would not disclose, would be an optional plan for cities which desired it.

The senator said his original 60-year annual subsidy plan would be retained. The President previously had expressed disapproval of the subsidy, saying he did not believe federal and local governments should obligate themselves for such a long period.

Gunmen Get Gold From Man's Mouth

DENVER. (AP)—"Say 'AH,'" said the gunmen to John Boleman as they accosted him on a dark street.

The four men peered inside his mouth.

"Sure enough, he's got them," they decided.

Then they tapped Coleman on the head with a pair of pliers and took his gold bridge from his mouth—value \$66. In addition they stripped him of his clothing, glasses and shoes.

BANK CAPITAL FOUND SMALL

WASHINGTON. (AP)—Federal Deposit Insurance Corporation officials reported today a survey has shown that between 2000 and 3000 of the 14,000 insured banks have less capital than that deemed desirable by the FDIC.

These officials emphasized this did not indicate the banks were unsound, but said it probably would be desirable for the institutions to increase capital as insurance against any possible adverse conditions in the future.

Of all assets of insured banks,

Eat More Turkeys or Raise Fewer Birds, U. S. Advises

WASHINGTON. (AP)—A group of government experts has decided that either the public must eat more turkey or farmers must raise fewer of the festive birds.

Although consumption of turkeys last Thanksgiving and Christmas set an all-time high, they said, more turkeys were carried over into cold storage than ever before.

Suggestions by the committee for increasing turkey consumption included:

the authorities said, about 10 per cent could not be converted into cash immediately.

Raising smaller turkeys. A market survey showed most families want a bird weighing from 9 to 14 pounds.

Teaching the public through advertising that turkeys are good food all year.

Cutting off the head and feet of the gobblers before marketing.

Selling turkeys in parts, frozen and ready to cook.

Canning turkeys.

SOLVE MYSTERY OF ALLIGATOR

ROME, N. Y. (AP)—The mystery of Rome's postoffice alligator has been solved, to the relief of postal workers whose burden of feeding the creature has been shifted to the rightful, although unsuspecting owner—Delos A. Humphrey.

The alligator was discovered one day wandering about in the post-office. Postal workers not only had little idea of what to feed it, but could not discover where it came from.

The mystery was finally unraveled when a box, empty and with a hole in its side, was discovered

FROST LOSS TOLL MOUNTS

Truckloads of Citrus
Being Tossed Away

By KENNETH ADAMS

Jack Frost delivered a knock-out punch to many citrus growers of Orange county. And the blow staggered many of the orchardists harder than most anybody thought before the picking season.

Orange county's total income from citrus this year may approximate the \$23,410,150 of last year, but it seemed doubtful today to many observers. Growers with heated groves and those who were fortunate to be in a spot where the killing cold of January did not strike, probably will benefit by the rising market, expected to hit a peak in late July and August, but there are many whose entire crops were wiped out.

Nearly Total Loss

Raising oranges is not just a matter of waiting for the golden fruit to ripen and then turning it into a stream of silver dollars. Not this year, anyway. Cooperative lending association records have revealed that fruit in groves in widely separated parts of the county in case after case will be a total or near-total loss.

Take the case record of a 60-acre grove in southern Orange county for example. The trees were loaded with golden fruit, which looked just as good as it ever had. The pickers went into the grove and plucked 10,000 boxes of Valencia oranges from the trees.

Tragic Discovery

But that picking revealed a tragic fact. Seventy per cent of those 10,000 boxes of oranges were not good enough even for by-products. They went to the dump. Truckload after truckload of the oranges were thrown away. There wasn't enough juice in them to pay to juice them. And they were good for nothing else. But that wasn't the worst of it. Out of the 30 per cent of the remaining boxes out of the 10,000, the grower got less than 1500 packed boxes of orchard run grade and lower.

Things were even blacker for the owner of a fine 20-acre grove in the Anaheim district. Original estimates placed his crop at 9000 boxes of fruit. But as a result of the freeze the estimate dropped to 5500 field boxes prior to the first picking. Now the estimate has dropped to approximately 3000 boxes. And the grower has been informed that there is no market value for the fruit. Therefore the crop in this grove is a total loss.

Others Hit, Too

There are many other such cases on record, but these are typical of the plight of many citrus growers throughout the county.

Orange county has 57,675 acres of bearing Valencia, which brought an income of \$19,493,520 into the county last year. Agricultural Commissioner D. W. Tubbs estimates that the county as a whole will market about half of its Valencia crop. In order to equal the total income of last year, prices must be about twice as good as they were last year.

But it is not only Valencia growers who were hard hit in so many cases; the lemon growers also suffered. The lemon crop brought in \$3,350,000 last year. Persons close to the industry estimated that probably but 20 per cent of the lemon crop will be marketed. In many cases the fruit is not even picked from the trees in groves where the cold wave has destroyed the entire crop.

MATTERN WILL FLY FOR TEXAS

LOS ANGELES. (P)—Before taking off today for Dallas, Tex., Jimmie Matern, aviator, who plans a flight from Oakland, Calif., to Moscow, in August, disclosed that he will undertake the trip as official air ambassador of the Lone Star state.

Matern, who is scheduled to fly to Dallas by commercial transport, said he will confer tomorrow with Gov. James Allred concerning christening his new ship the "Texan."

The new \$90,000 twin-motored plane he will use on his Russian hop will be decorated with a map of Texas and a picture of a bucking broncho atop a cloud.

Matern is a native of San Antonio, Tex., and his backer, M. L. Benedum, wealthy resident of Pittsburgh, Pa., made much of his fortune in the Texas oil fields.

Matern took his new ship up for a test flight yesterday. He will fly it to Dallas about July 10, he said.

13 CHILDREN HURT ON SWING

LOS ANGELES. (P)—Thirteen children were recovering today from injuries sustained when they were thrown from their seats of a revolving swing.

The operator of the device, Harmon Klein, said it "flew apart." Lena Pecora, 14, suffered fractured ribs and a possible broken back. James Baird sustained serious leg injuries. The others were less seriously hurt. The accident occurred last night.

Kansas State college agronomists have developed a new oats strain which they believe will meet the demand for a smut-resistant variety. It is named Fulghum X. Markton.

SYMPHONY TO
PLAY TODAY

Orchestra Appears
At Willard

The curtain rises at 8:15 tonight on the concert being given at the Willard auditorium by the Federal Music Project Symphony orchestra under the baton of Leon Eckles.

Prepared to present a diversified program with selections from the world's great symphonic scores, the orchestra numbering 40 men and women will first perform the "Symphony in B Minor," a composition from the treasury of Franz Schubert, better known as the "Unfinished Symphony."

Regarded as without parallel in symphonic literature, everything in this symphony is the essence of Schubert to whom "it was given to answer human experience with music of a beauty that gives ineffable consolation and surcease from pain." It is amusingly told of Schubert that while in the process of writing this music he wore his spectacles to bed in order that he might be ready to go on with his composing the instant he awakened.

Following the "Unfinished Symphony" in the first half of the program will be the "Dance of the Hours" from the opera, La Gioconda, based on Victor Hugo's "Angelo, the Tyrant of Padua," by the Italian composer, Ponchielli.

Immediately after the intermission, Miss Georgia Belle Walton, concert violinist, will play the first movement of the "Symphony Espagnole," with full orchestral accompaniment.

Massenet's tone-paintings will be represented by his "Scenes Pittoresques" of which the most familiar is "The Angelus." Three other highly descriptive pieces from this suite will be performed—the "Marche," "Air de Ballet" and "Fete Boheme."

The concert sweeps to a close in the "Overture to Tannhauser" which consists of two main themes—two broad and striking melodies in admirable contrast—the solemn chant of the celebrated "Pilgrim's Chorus" and the bold, trenchant song of Tannhauser in praise of Venus. The overture represents Wagner at his best in depicting "in notes where others employed words" the triumph of sacred over profane love, speaking in immortal musical phrasing of pity and pardon, infinite and eternal.

Tickets for the concert will be on sale at the Willard school box office opening at 7 p. m. Popular prices will prevail.

SLASH RELIEF
LISTS AGAIN

LOS ANGELES. (AP)—New reductions in personnel of federal relief projects in Los Angeles county, in compliance with orders from Washington, will trim the writers' project by 20 and the art project by 35, by July 15, it became known here today. The writers' project now has 72 workers enrolled and the art project 160.

Reductions ordered in federal relief projects in this county total \$284, of which \$683 are in the Works Progress administration, 339 in the music project and 200 in the theater project.

Coffee Hour
In Minnesota
Capitol Doomed

ST. PAUL. (AP)—Two good Scandinavians struck a serious blow at the good old Scandinavian custom of afternoon coffee in the heart of the Scandinavian belt too.

Ludwig A. Johnson, Minnesota state capital custodian, issued orders, with the sanction of Gov. Elmer A. Benson, terminating coffee brewing in capitol offices.

The order wasn't aimed at the custom. Its object was economy. Johnson said the more than 30 electric coffee makers in use in the capitol burned too much electricity.

Oscar the Boa on
Loose in S.F.

SAN FRANCISCO. (AP)—Oscar was on the loose in San Francisco today stretching the wrinkles out of his skin while police and William Hopper sought him.

Oscar came to San Francisco 18 months ago from the South American jungle. Oscar is a young boa constrictor, the pet and chief mouser in Hopper's firearms shop.

Hopper said Oscar was too small to be dangerous. He is only three feet long and diets on mice.

School Body Head

LOS ANGELES. (AP)—Roy J. Becker of San Pedro will be the next president of the Los Angeles county board of education. Mrs. Margaret Clark, a member of the board, said today.

She said Becker's election will be voted on by the board at its July 1 meeting, while he and Mrs. Clark are attending the National Education association convention in Detroit.

During extreme dry spells a part of the Withlacoochee river, about six miles northwest of Valdosta, Ga., runs upstream.

STANDARD TIRE

HIGHER QUALITY RAW MATERIALS... MORE EFFICIENT MANUFACTURING and LOWER DISTRIBUTING COST... ALL COMBINE TO GIVE YOU FIRST QUALITY AT A MONEY-SAVING PRICE!

The Firestone Standard Tire gives you the blowout protection of Firestone's patented Gum-Dipping process. EVERY FIBRE of EVERY CORD in EVERY PLY is saturated and coated with pure, liquid rubber which counteracts internal friction and heat that ordinarily destroy tire life. Its scientific

cally designed tread gives greater non-skid protection and longer wear. And those two extra layers of Gum-Dipped cords under the tread guard against punctures and provide greater strength by binding the tread and cord body into one inseparable unit.

Before you buy ANY tire at ANY price, see today's top tire value — the Firestone Standard Tire. Don't risk your life with thin, worn tires on your Fourth of July trip. GAS TAX FEE RECORD SEEN

Boost in May Sales Points to Big Year

SACRAMENTO.—A substantial increase in gasoline sales during May points to the way toward a record income for the year from the motor vehicle fuel tax, the state board of equalization announced today.

Income from the gasoline tax amounted to \$4,635,695 in May, an increase of 26.65 per cent over the same month of last year and a gain of \$467,346.99 over the total collected during the previous month.

Indicative of improved economic conditions, the gasoline tax has amounted to \$20,283,425.85 for the first five months of the year, as compared with \$18,486,561.41 during the same period of 1936, according to board records.

"If this trend is continued," said Richard E. Collins, board chairman, "there is every reason to believe that the year will see the gasoline tax pass the \$50,000,000 mark for the 12-month period."

A total of \$49,256,080.92 was collected by the state from the gasoline tax in 1936.

LOVE LETTER WOWS BRITISH

LONDON. (AP)—Authors and other celebrities have applauded as literature a love letter written by a bare-footed Irish boy 30 years ago. It was read at a recent Royal Literary fund banquet here.

Maurice Healy, K. C., said the letter, originally read at an assize trial at Cork, "could not be written today in London or Boston, and the trial judge at the time was so struck by its beauty he supplied funds for the boy and girl to get married."

"Far away from where I am now, there is a little gap in the hills, and beyond it the sea; and it is there I do be looking the whole day long for 'tis the nearest thing to yourself that I can see."

Survey Finds Half of Women Leaders Childless

LOS ANGELES. (AP)—Dorward Howes, who compiled biographies of 7851 outstanding women, says that of the married women who are leaders in business, social and professional worlds nearly half are childless.

His summary shows of those he listed 39 per cent are childless, 28 per cent have one child, and the percentage continues to diminish as the number of children increases.

L. A. Check Suspect Caught in South

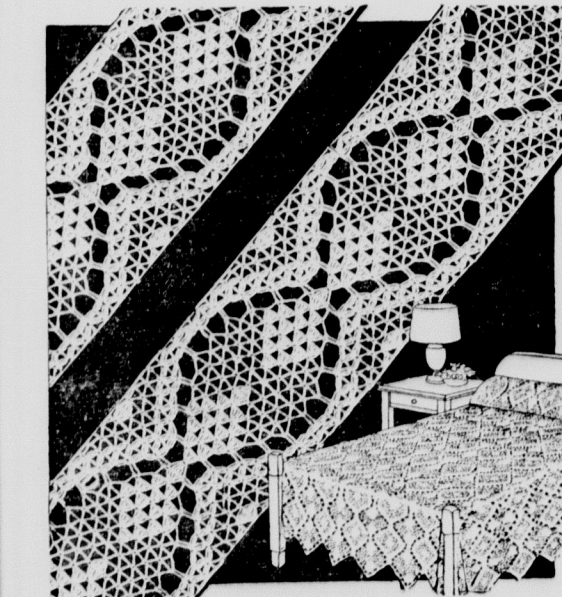

NEW ORLEANS. (AP)—A man listed as Charles Campbell Jarrel, 21, former Louisiana State University student, was brought here yesterday from Bogalusa, La., and held on charges of forging checks totaling \$400 in Los Angeles, Berkeley and Bakersfield, Calif.

Jarrel said he attended L. S. U. for one year, recently sold a story to a national fiction magazine for \$2000 and had been a movie "extra."

Detective Robert C. Ellis of the Los Angeles police department, said Jarrel left California about three weeks ago and was traced to Bogalusa by a telephone call he made to a young woman in Los Angeles.

\$10,000 NEEDED TO FARM. LOGAN, Utah. (AP)—A capital investment of \$10,000 or more is necessary to enable a farmer to reasonably satisfactory income. A tabulation of farm record books at the Utah State Agricultural college showed that of 784 owner-operators, 592 received a return of \$600 a year or less. Seventy per

MONTGOMERY WARD

FOURTH AND MAIN

SANTA ANA, CALIF.

FAMOUS SALE SATURDAY

Bargain Prices
Are Offered

Tomorrow is Manager George Kidd's day at the Famous Department store. Once each year this special merchandising event is held at the Santa Ana Famous store and tomorrow is the day.

Kidd and his staff will offer a wide variety of specials to make summer more enjoyable for vacationists as well as those who stay at home.

Every item in the store has been checked and prices, wherever possible, have been lowered, including those on warm weather clothes for cool comfort.

"School is out, sun clothes and sun fun are ahead," said Manager Kidd. "We have prepared for this event months ahead; our buyers have searched the markets for dependable merchandise which could be secured at a price that would afford us an opportunity to pass it on to our customers at a great saving."

Fine Showing

"Our business throughout the past 12 months has been most gratifying; our Santa Ana store has grown in volume of business second to none, surpassing every objective set for us to meet. As manager of the Santa Ana store I am grateful for this fine showing, and to express in a mild manner my thanks, I will avail myself of the opportunity here presented in this sale to render not only a service to the organization I represent but also to the thousands of our friends and satisfied customers throughout Santa Ana and Orange county who have, by their purchases, made our success possible.

"In appreciation, it is my desire and intention to make tomorrow's event at the Famous the most outstanding in its history; to accomplish this, the Famous is making Saturday a real value day, at which time Famous prices will be lower; Famous values higher, in a colossal store manager's sale throughout every department of the store.

"To help you enjoy vacations ahead, let me urge you to attend this sale tomorrow, and to make your selection for the Great and Glorious Fourth as well as to secure your vacation needs, all at substantial savings on every purchase.

Credit Accounts

"If the money is scarce," continued Kidd, "we have a credit department right in our store under the able management of Mrs. Gladys McVicker. In this department one may secure just the credit necessary to help him over a tight time.

"We have a monthly account credit which allows certain customers a month in which to pay for all goods purchased during that month; in this plan the account is payable in full on the first of each month. We have another that is known as the budget accounts, which applies to wearing apparel, and the terms are \$5 down, balance in monthly payments of \$5.00. And then there are our lease accounts which carry such merchandise as home appliances, radios, furniture, refrigerators, gas and electric ranges, etc., which can be purchased here at the Famous on a payment of as little as \$5 down and balance in small monthly payments over a certain period of months. There is a small carrying charge on lease accounts."

Victim of Crude Surgery on Job

SANTA BARBARA. (AP)—Robert L. Brooks, sheep herder of lonely San Miguel Island, is back at his chores today thanking his friend, Herbert Lester, "king of San Miguel," for his primitive surgical dexterity.

Brooks was seriously wounded, a deep gash on his thigh from a fall on a pier. There being no doctor, Lester sterilized a corset sacking needle and some fish line and sewed the wound. Brooks later was brought to the cottage hospital here. Doctors said it was a splendid surgical job and sent him back to the island.

Cattle Prices Will Be Higher

WASHINGTON. (AP)—Government livestock experts predicted today that prices for most grades of slaughter cattle would average higher this summer and fall than in the same period last year.

The bureau of agricultural economics said this trend was indicated by stronger consumer demand for beef, smaller market supplies and prospective large grain crops.

Wants U. S. Opera Sung in English

REDLANDS. (AP)—James Kelley Guthrie, 23, youngest symphony conductor in the United States, wielded the baton last night and will repeat Saturday night in presentation at the bowl here of "The Blonde Donna," Ernest Carter's opera-comique.

He says all American opera should be sung in English, so people can understand the words.

Garbage Change Is Too Costly

LOS ANGELES. (AP)—City Engineer Lloyd Aldrich reported that a proposal by women's organizations that garbage be collected from the rear of residences instead of from the sidewalk curbing would entail an increased cost of \$904,619 annually.

SALE HEADQUARTERS—The Famous Department store will stage a smashing sale tomorrow in its quarters shown above. It will be Manager George Kidd's day and he has prepared a huge list of bargains for Santa Ana and Orange county shoppers.

CONVICT FACES U. S. TAX COUNT

SAN FRANCISCO. (AP)—E. J. Curtin, former president of the Crescent City Land and Development company, completed a three-year term in San Quentin prison yesterday to find himself facing possible federal prosecution.

Curtin was paroled to the U. S. marshal, who prepared to turn him over to U. S. Commissioner E. E. Williams to post bond on a charge of evading 1931 income taxes totaling \$26,949.87.

Curtin entered prison in June, 1934, after his conviction for theft of \$30,000 in bonds from Mrs. Anna R. Riley of Los Angeles, and on two indictments charging violation of the corporation securities act.

The new indictment involving income taxes was returned last September and alleges Curtin failed to report an income of \$142,910 from the sale of securities and sought to evade payment of taxes thereon.

LIQUOR RING DISRUPTED

LOS ANGELES. (AP)—United States Attorney Pearson M. Hall predicted "the most amazingly successful liquor organization that has operated in the West in recent years will have been permanently disrupted" when the offenders are brought to trial.

Sixty-two men already have been indicted on liquor conspiracy charges and indictments against others are being prepared, Hall said.

Most of those indicted live in the San Francisco and Fresno areas. Four men have surrendered here and more than a score of deputy marshals are searching for other alleged offenders for which warrants have been issued.

'EDUCATION NEEDED' AKRON, O. (AP)—Erie railroad officials insist the public needs some education in proper conduct at grade crossings. Half an hour after the company installed automatic gates at an Akron crossing, a truck roared down the street and crashed through them as they were being lowered to stop traffic from an approaching train.

BIG HARVEST PREDICTED

WASHINGTON. (AP)—Government farm leaders foresaw bright prospects today for a bountiful 1937 harvest—both in the fields and in congress.

Agriculture department market experts said that probable large crops of wheat, rye, corn, oats and other grains would cause a downward adjustment in prices to the farmers, but that greater volume would offset lower prices and increase total cash income.

Farm cash income in the first four months of this year amounted to \$2,591,000,000, gain of \$541,000,000 over the same 1936 period.

Government economists said the 1937 12-month total approached \$9,000,000,000. This would surpass the \$7,865,000,000 total last year, highest since the depression.

The 1929 peak was \$10,479,000,000. Part of last year's gain came from drought-forced early marketing of livestock. The economists said smaller marketing of cattle and pigs the rest of this year would be offset by higher prices.

HEAD MAN—George Kidd, shown above, is manager of the Famous Department store, which will stage a big sale tomorrow. Kidd and his staff have made extensive arrangements to make the sale a big event.

LIGHTNING STRIKES CHARLOTTESVILLE, Va. (AP)—University of Virginia physicists disclosed photographic studies showing that lightning usually strikes the same place not once, but twice, three times or oftener in a series of flashes each 1-1000 of a second apart.

Dr. Ball Estate Goes To Widow

Dr. C. D. Ball's will, leaving his estate to his widow, Mrs. Emma L. Ball of Santa Ana, was filed by the latter in superior court here today. Ball died June 7, leaving \$2500 in stocks and bonds.

KIWANIS PICKS S. F. FOR 1938

INDIANAPOLIS. (AP)—The twenty-first annual convention of Kiwanis International ended yesterday with final announcement of the results of Wednesday's election in which F. Trafford Taylor of St. Boniface, Manitoba, was chosen president without opposition.

Count of the ballots showed the election of Harold Hippler of Eustis, Fla., and George E. Snell of Billings, Mont., as vice president. Trustees elected for two-year terms included Phillip McGaughan, Long Beach, Calif.

H. G. Hatfield of Oklahoma City was re-elected treasurer by acclamation. San Francisco was selected for the 1938 convention.

New Professor For Stanford

PALO ALTO. (AP)—Dr. John Wendell Dodds of the university of Pittsburgh will come to Stanford University next fall as associate professor of English. Dr. Ray Lynn Wilbur, president of the university, announced.

STEEL CHIEF—Frank Purnell, president of the strike-bound Youngstown, Sheet and Tube mill, at Youngstown, O., where riots occurred.

COFFIN WELCOMED

SHANGHAI, China. (AP)—General Ho Chien, popular governor of Hunan province, recently was given 30 logs of coffin wood as a good will token by some of his admirers. General Ho, it is reported, was delighted with the gift.

YAM NOW FEED AND GASOLINE

SAVANNAH, Ga. (AP)—Experiments by Dr. Charles Herty, noted scientist, reflect new importance for the sweet potato in the economic scheme.

He exhibits samples of motor fuel and stock feed derived from the tubers in initial experiments.

Using a carload of potatoes in carrying out a test run, Dr. Herty says he learned sweet potatoes readily adapt themselves by mashing into a mash easily handled for fermentation. To this, he said, was added fermentation products and alcohol was poured off. The residue tested 29.5 per cent, and the scientists said it was found excellent for stock feed.

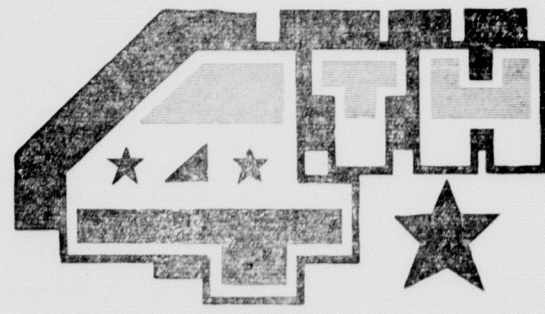

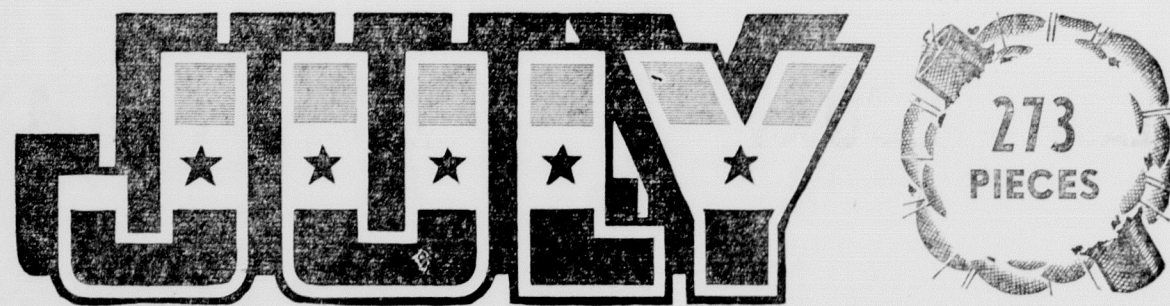

A 10 per cent mixture of alcohol may be used in automobiles without carburetor modification, according to Dr. Herty.

Ban Swimming in L. A.'s Dry River

LOS ANGELES. (AP)—The city council has banned swimming in the Los Angeles river—in which there is so seldom any water.

SUITS AIMED AT CEMETERY

Mutilation of Bodies Charged in Actions

LOS ANGELES. (P)—Three suits for damages totaling \$110,000 were filed yesterday against Glendale Memorial Park, a cemetery, variously charging mutilation of bodies and wrongful discharge of an employee in that connection.

One suit charged that work was so negligently done in interring the body of Benjamin S. Quick that the grave box collapsed and the casket and body were mutilated. In another complaint, relatives of the late James P. Webber charged similar negligence and results in his burial.

James J. Mason, a laborer, filed the third suit, asking \$10,000 damages on the ground that he was discharged when he refused to demolish a grave box and body contrary to law. Mason said he was ordered to open a grave. He said he found a body already buried there and was ordered to destroy it, but refused to do so.

The plaintiff relatives and damages they seek follow: Mattie Quick, \$20,000; Sherman Quick, \$10,000; Olive Catt, \$10,000; Evelyn J. Webber, \$50,000; Fred Sharrow, \$5,000; and Ethyl Sharrow, \$5,000.

Glendale Memorial Park has no connection with Forest Lawn Memorial Park, also in Glendale.

PLANNING BODY ASKS BILL VETO

Orange county planning commission today had joined a movement to prevent establishment of schools and churches without restriction in any residential district.

At the suggestion of Mrs. Ora K. Heine, secretary of the Santa Ana city planning commission, the county commission yesterday ordered a letter sent to Governor Merriam asking him to veto a bill which would grant such rights to schools. It is known as assembly bill 2343.

Mrs. Heine pointed out that schools and churches now are allowed in residential districts under regulation, but that to allow their establishment without relation to city or county planning might work a hardship on property owners.

Find Indians Who Believed In Fairies

TULSA, Okla. (P)—The American Indian, with his own rich lore of the miraculous and the supernatural, was not given to telling fairy tales, but one tribe has been found which told such tales around the camp fires.

William Cunningham, director of the state writers' project of the Works Progress administration, said a project worker had found vestiges of European fairy tales among the Cherokee Indian tribe. Cunningham said the investigator had been advised the fairy tales probably were picked up from Scottish pioneers, who mingled with the tribe and intermarried generations ago.

But, Cunningham said, the tales undoubtedly were told for the worker had been able to locate three miles south of Salina a spot where Indian legend had it the fairies lived.

Delegate Named By Local Frat

Freddie Pimental has been chosen as delegate of the local Alpha Alpha chapter of Phi Sigma fraternity at the national convention to be held in Hollywood July 17, 18 and 19.

At the same time Pimental was selected as delegate. Paul Hewitt was named alternate. Bascom Rush has been put on the ballot for national office. It was announced by Phil Dowds, president of the local chapter.

Several members of Alpha Alpha chapter will attend the three-day convention. According to plans being made today, indications are for a colorful convocation. It will be held in the Knickerbocker hotel.

Highlights

FROM THE
Journal's Newsreel
NOW SHOWING AT THE
Broadway

PERU—Scientists from all over the world gather at Trujillo to observe and photograph for study total eclipse of sun.

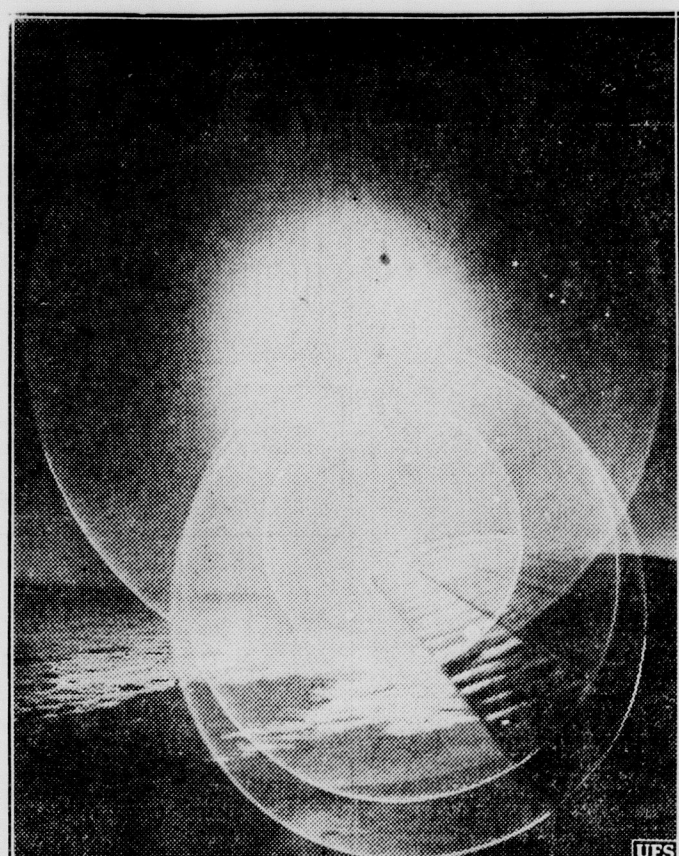

OSA JOHNSON—Famed woman explorer, widow of the late Martin, sails for Africa to film jungle epic for 20th Century-Fox.

ROBERTA JOHNSON—Dance star who spent two weeks at White House, shows you how she performed to entertain Mrs. Roosevelt.

MODERN ROAD MAGIC—Solves New York's traffic problem. The Moviephone cameraman soars above complicated labyrinth of highways with which engineers take the danger out of curves.

NEWSLETTERS—Our unconfirmed bachelor, Lew (On the Dole) Lehr, follows his nose and marches smack into a multitude of unmarried females—you guess the rest.

SPORTS—Cameraman sails with marksmen of the deep to capture the tingle of fighting mighty sea monsters off Nova Scotia.

FREAK PICTURE OF ECLIPSE—This unique freak photograph, made at an elevation of 25,000 feet by the Hayden Planetarium-Grace Eclipse expedition in Peru, shows the recent solar eclipse a second before totality. Although only a point of direct sunlight was visible, this entered the camera lens and caused the central spot of light to be the complete disc of the sun. Reflection through several surfaces of lens caused circular rings on negative.

NEW TRAINING FOR TEACHERS

SYRACUSE, N. Y. (P)—A new professional approach to the training of public school teachers will be inaugurated next fall at Syracuse university's school of education in an effort to bridge the gap between theory and practice.

In place of education courses modeled upon academic tradition, the new program will offer "units of work" centered about essential attitudes, skills and knowledge important to effective service in schools.

Senior students will be required to spend at least six consecutive weeks of actual teaching in public schools in central New York.

The university's "new deal" in education will become effective for students preparing to teach English, home economics, social science and the physical and natural sciences.

ROAD TO MOTORISTS

PIERRE, S. D. (P)—The state's powerful road magnet collected 26,855 pounds of metal pieces scattered along 2907 miles of highway in 1936. State engineers estimate that these operations, costing \$2284, saved motorists thousands of flat tires.

RULING 'ROBS' STATE OF TAX

SAN FRANCISCO (P)—California's attorney general, U. S. Webb, has turned back to the treaty which ended the Mexican war in ruling that Los Angeles county cannot collect certain taxes on San Clemente island.

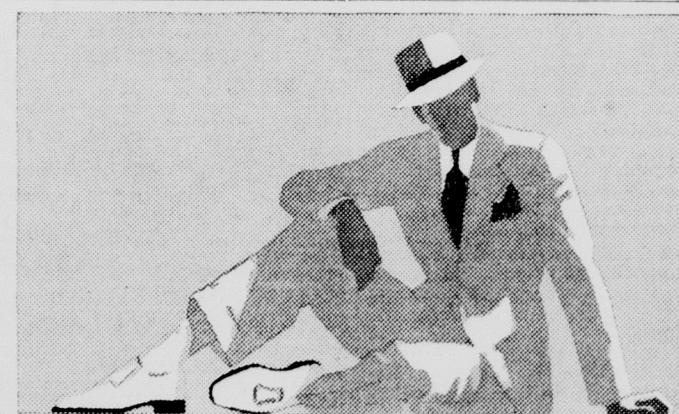

He held that under the treaty of Guadalupe Hidalgo of 1848 the "sovereign right of the Mexican government in such land (the 31,500-acre island) passed to the United States and not to the state of California."

The opinion was on the question of collecting so-called "use" taxes on lighthouse and other equipment placed on the island, off the Southern California coast, by the federal government.

Webb further pointed out that the act of admission of California to the Union provided the state never levy taxes on the public domain of the United States.

AMEND GRADING ACT

WASHINGTON (P)—President Roosevelt has amended a previous executive order to permit state, county or municipal officers to serve as a district advisor under provisions of the grading act.

Mitchell Stumped by County Salary Puzzle

SUPERVISOR ASKS AID

Will Let Board Set
New Pay Levels

Supervisor John Mitchell has decided not to take the responsibility of setting salaries for county employees on his shoulders.

The supervisor from Garden Grove, who has been in conference for days with two representatives of the California Taxpayers' association sorting out the hundreds of questionnaires filled out by county officers and deputies, said today he will leave that problem to the entire board of supervisors.

To Suggest Ratio

Mitchell said he will present a classification of employees according to responsibility, length of service and training, and will suggest a ratio of pay between the different classifications.

But it will be up to the board of supervisors as a whole to decide what the minimum pay should be, and how much more the higher classifications should be paid.

Supervisor N. E. West, appointed with Mitchell to investigate salaries and recommend a schedule, left a week ago for Washington, leaving Mitchell with the job, which turned out to be a bigger affair than either supervisor realized.

Plans Ratings

Mitchell's proposed schedule would give workers of any given type ratings of A, B, and C according to various qualifications of training and experience.

If county employees want depression pay cuts reduced, or if they want other raises, they can take it up with the board as a whole, it was indicated. As it is, they have been speculating worriedly over what Mitchell's recommendations would turn out to be.

DRUNK DRIVER FINED \$150

Farrel E. Bailey, 722 Bonnie Brae, Los Angeles, pleaded guilty to a charge of drunken driving in police court yesterday and was fined \$150.

Other fines yesterday totaled \$34.

Carol M. Merrick, 176 North Pixley, Orange, paid \$1 for driving with glaring headlights; Joe F. Jordan, Los Angeles, paid \$6 for speeding; Carl W. Parnell, 208 Cherry street, Anaheim, \$6 for speeding; Faye R. Halgren, Ontario, \$1 for overtime parking; A. J. Wright, box 138, La Habra, \$8 for speeding; William S. Allen, route 1, \$1 for overtime parking; A. L. Hart, \$1 for parking in a red zone, and John C. Tyler, Indio, \$10 for speeding.

Quads Are Nice But It Takes A Quint To Ring Cash Register

THE MORLOKS... Edna A., Wilma B., Sarah C., and Helen D.

THE KEYS... Roberta and Mona (top), Mary and Leota (bottom).

THE KASPERS... Francis, Felix, Ferdinand and Frank

By The AP Feature Service

While Canada's quints make millions, America's quads haven't been doing so well.

The four Keys girls of Hollis, Okla., might have made money, but their father refused all offers. Now, however—22 and just graduated from Baylor college, Texas, America's oldest quads are going on the air for cash.

The Morlok family of Lansing, Mich., also shied away from commercialization when four daughters were born seven years ago. But the city gave the jobless father a \$200-a-month job as constable and was re-elected on a "quadruplets" platform.

When quadruplet boys were born to the Kasper family of Little Ferry, N. J., a year ago, the quintuplets were much in the news. So the family was showered with cash. The first year's total, reportedly \$700, included \$50 a week from a newspaper and \$100 a month from a San Francisco woman in memory of her son, who died on the quads' birthday.

LOAN CHIEFS CONVENE

Crill Will Talk at
Del Mar Session

John W. Crill of Garden Grove, president of the Orange County Production Credit association, and W. D. Miller of Santa Ana, secretary-treasurer, together with other members of the board of directors is in Del Mar today attending the annual regional conference of seven Southern California production credit associations and one from Arizona. Crill will be one of the principal speakers at this conference and will lead a discussion on unsecured loans. The conference will be in session today and tomorrow.

Other members of the local board attending are Walter J. Pollard, Tustin; Vernon C. Heil, Smeltzer; J. J. Dwyer, Anaheim, and A. F. Schroeder, Orange.

The production credit associations which will send boards of directors and secretary-treasurers to meet with the Orange county representatives are the Arizona Farmers, El Centro, Los Angeles, Riverside county, San Bernardino, San Diego and Ventura, according to W. D. Miller, secretary-treasurer of the Orange county organization.

According to figures released by Miller, the total volume of business of the seven Southern California production credit associations from Nov. 1, 1936 to May 31, 1937, was a little over \$3,400,000. The average loan per farmer during this period was \$4016. For the same period in 1936, the total was approximately \$3,200,000 and the average loan was \$3566.

The outstanding balance on May 31 this year was \$2,339,000. Of this amount \$1,469,000 was for crop and general agricultural loans; dairy loans were next with \$464,000. Next were feeder livestock loans with approximately \$291,000 and lastly range and breeder loans, \$116,000.

The conference will take up the matter of speeding up and more efficient handling of short term production loans.

France Ratifies 1936 Naval Pact

LONDON. (AP)—French Ambassador Charles Corbin deposited with the foreign office today official notice that France has ratified the London naval treaty of 1936, limiting the individual size but not the number of war vessels.

The United States senate has approved the agreement, which remains to be ratified by Great Britain and the dominions.

OLD TIMERS TO GATHER

More Than 5000 To Meet on Sunday

County Clerk J. M. Backs predicted today that the annual Old Timers picnic to be held Sunday in Irvine park will set a new record for attendance. About 5000 attended last year.

Backs, who is president of the group, reported he has had replies and inquiries from many parts of California and from several other states. Many former Orange county residents plan their vacation trips in order to be here for the annual event.

As usual, there will be no formal program, Backs said. In previous years committees in charge have found that the county's pioneers and old timers prefer to spend the day renewing acquaintances rather than listening to program features. Those attending have been asked to bring their own basket lunches and dishes. The committee will provide coffee, sugar and cream.

Garden Terrace Forms Lovely Setting for Whyte-Crookshank Wedding Rites

Bride Wears White Dotted Swiss for Ceremony

Joining together two prominent Southland families, one of them long identified with the growth and unfolding of Santa Ana, the other with Pomona's history, a beautiful wedding ceremony was solemnized late yesterday afternoon on the terraced lawn of the M. B. Wellington home on Lemon Heights. Principals in this wedding, for which a tone of quiet simplicity was chosen, were Miss Eleanor Crookshank, charming daughter of Mrs. C. S. Crookshank of Santa Ana and of the late Clarence Crookshank, and James Whyte, son of Mrs. Frederick Whyte of Pomona.

At exactly 4:30 o'clock, when the sun was lowering toward the mountain ranges which form the vista from the lovely garden setting, the music of Lohengrin's Wedding March, played on the piano by Alan Revell, was heard within the house.

Miss Martin Crookshank, a cousin of the bride, wearing a long garden frock of pink lace and carrying an old-fashioned bouquet of Finch roses and blue delphinium, preceded the bride down the pathway to the altar where the minister and bridegroom awaited them.

Brother Escorts Bride
The bride, whose lovely wedding dress was of white dotted Swiss, made with a long skirt and little puff sleeves, was escorted by her brother, Ronald Crookshank, who also gave her in marriage. Her short veil, falling just to her shoulders, was caught to her hair by a wreath of orange blossoms, and her bouquet was a simple spray of lilies of the valley and gardenias.

Combining the "something old" and the "something blue" of the wedding tradition, she wore as her only jewelry a little blue cross loaned to her by Mrs. Robert Northcross, in whose family it has long been a treasured possession.

Mr. Whyte's only attendant was friend of his law school days, Martin Gendel of Los Angeles. The Rev. Perry F. Schock of the First Congregational church read the marriage rites, which were witnessed only by members of the two families.

Throughout the impressive service, Mr. Revell, at the piano, and Miss Margaret Jaber, with her violin, played softly an arrangement of "Meditation" from the opera, "Thais."

Mothers in Lace
While the guests were congratulating and greeting the pair after the ceremony, the two mothers, and Col. and Mrs. Wellington joined in the receiving line. Mrs. Crookshank wearing rose lace and Mrs. Whyte grey lace, Mrs. Wellington a grey sheer.

The bride cut her wedding cake at a table set beneath a marquee on a lower terrace, to which the guests were invited for servings of cake and punch. All appointments for the table were in white.

Later, the young couple departed for a honeymoon to an un-revealed destination, and will be at home in Pomona when they return. Guests assembling for the wedding were the following:

Mrs. Frederick Whyte, mother of the bridegroom, his sister, Miss Virginia Whyte, Mrs. Gordon Whyte and son, Grenville Whyte, Mr. and Mrs. J. A. Allard, Jr., Miss Bertha Whyte, and Mrs. Mary Bundy, all of Pomona; Mrs. C. S. Crookshank, mother of the bride; Mr. and Mrs. J. A. Landall of San Diego; Mr. and Mrs. Martin Gendel, Mr. and Mrs. Harry Holden and daughters, Barbara

LOIS LAMBERT IS HONOR GUEST AT SHOWER

Ending a round of gay pre-nuptial events in her honor, Miss Lois Lambert, who is to become the bride Saturday of Edwin Magill, was complimented Wednesday night by her future sister-in-law, Mrs. W. G. Edwards of 206 West Maple street in Fullerton.

The affair was a bathroom shower, and many lovely linens and accessories were received when gifts were opened before a late refreshment course was served by the hostess. Prizes for card games were awarded to Mrs. Clyde Gedney, high, and Mrs. Alice Brady, low.

Guests of Mrs. Edwards were Miss Lambert, Mrs. D. J. Magill, Mrs. Clyde Gedney, Mrs. Gerald McConaughy, Mrs. Jim Magill, Mrs. Henry Van Delden, Mrs. J. J. Campbell, Mrs. Alice Brady, Mrs. W. H. Bass, Miss Julia Magill, Dr. Peryl Magill, Miss Betty Richardson, and Miss Evelyn Rhode.

WASHINGTON GUESTS AT BRONSON HOME

Mrs. Maude Bronson has been entertaining guests from Seattle, Wash., Mr. and Mrs. Albert Silver, for a short time, she and her daughter, Miss Bernice Bronson, motoring with them to Twenty-Nine Palms and through the new Joshua Tree National park during the week-end.

Mr. Silver plans to dispose of his extensive holdings in Washington and return to settle here.

Donald A. Limerick of Bakersfield, a recent graduate of the University of California at Los Angeles, was also a guest in the Bronson home, leaving Thursday for San Francisco where he has accepted a position as chemist with one of the major oil companies.

JOIN FAMILY IN DINNER

Dr. and Mrs. Mark A. Dalton of 1625 Bush street went to Los Angeles Wednesday afternoon to attend a dinner given by Judge B. W. Dalton and Mrs. Dalton in honor of their daughter, Dottie.

Just graduated from University High school, Los Angeles. Other guests at the family dinner were Mr. and Mrs. John Dalton.

and Betty, and Mr. and Mrs. James Chase of Los Angeles; Mr. and Mrs. Conrad Crookshank of Brea. Santa Ana Guests
From Santa Ana, Mr. and Mrs. A. J. Crookshank and three daughters, the Misses Josephine and Marion Crookshank of the home and Miss Constance Crookshank, who is home from San Francisco for a short stay; Mrs. L. A. White, mother of Mrs. A. J. Crookshank; Mr. and Mrs. Ronald Crookshank and son, Ronald; Mr. and Mrs. Alan Revell, Col. and Mrs. Wellington, and Rev. Mr. and Mrs. Schock.

The new Mrs. Whyte is a native daughter of Santa Ana, receiving all of her early schooling here and later graduating from Stanford university after a term at Pomona college and the remainder of her college days on the Palo Alto campus. For the past four years, she has been teaching at Jefferson school in the city education system.

Her family is among the pioneer groups of this section, and her late father was prominent in financial circles, as was also her grandfather.

Mr. Whyte, whose family is prominent in Pomona circles, was graduated from Pomona college and later completed his law course in the University of California law school at Berkeley. Since passing the bar examination, he has been practicing law in Pomona.

UNIVERSITY CLASS HAS DINNER DANCE

Santa Ana Country club was the setting for the annual dinner dance of the Santa Ana University of Beauty Culture, teachers and students gathering for the dinner hour and the men joining them later for dancing.

Dark red snapdragons and baby breath decorated the tables, at which places were laid for the following:

Margaret Holtz, Mildred Collins, Sylvia Throop, Polly Greer, June Hama, Laura Rowlands, Jimmie James, Arca Shears, Charlotte Barker, Leola Worthington, Violet Thierfelder, Lorraine Moore, Helen Cathcart, Dorothy Luchau, Bonnie Agee, Bessie Valero, Bonnie Kite, Elizabeth Schultz, June Brockway, Velva Shearer, Anna Mae Solan, Ouita Pierce, Betty Merritt, Linnell Campbell, and Jewell England, students.

Maxine Vorton and Lois Brophy, former teachers; Jessie Fuller, Olive Crookshank, and Bonnie Wilbur, present teachers; Belle Van Decar and Betty Puckett, guests, and Mrs. Della Tubach, head of the university.

After dinner, the men joined them for dancing, the class presented Mrs. Tubach with a lovely coffee table as a gift, Bonnie Wilbur making the presentation.

M. S. G. CLUB BAKES STEAKS

M. S. G. club had its final meeting before the summer recess Wednesday night when the members went to Irvine park Wednesday evening for a steak bake.

Mrs. Minnie Mayhill and Mrs. Joe Catherine made plans for the jolly affair, highlight of which was a 6:30 supper.

Those present were the Mesdames Laura Murray, Minnie Mayhill, and Joe Catherine, and the Misses Justine Whitney, Lorraine French, Elizabeth Perkins, Mary Hilyard, Harriet Whidden, Lula Ott, and Helen Gallagher.

SUNDAY PICNIC
Congregation and friends of the South Santa Ana Christian church will have an old-fashioned basket dinner after the morning service, going out to Irvine park for the reunion. Those attending are to take their dinners and table service. Coffee will be furnished.

Mrs. Irvine Presides At Reception

To introduce Mr. and Mrs. Paul Dinsmore, who have recently come from Piedmont, Calif., to the Irvine ranch, where Mr. Dinsmore is now associated in an official capacity, Mrs. James Irvine received about 75 friends yesterday at an informal reception in her lovely ranch home on Myford Road.

Guests had been invited by Western Union telegrams sent out ten days ago, giving a unique touch to the affair.

Mrs. Irvine received her guests in a blue lace dress, and was assisted by her son and daughter-in-law, Mr. and Mrs. William Thornton White, Jr., the latter in a vivid summer print. Mrs. Dinsmore, who, with Mr. Dinsmore, was in the receiving line with her hostess, was in a flowered chiffon and had a gardenia corsage.

Bowls of cornflowers appointed the table from which refreshments were served buffet style. Shasta daisies filled the two spun aluminum bowls on the staircase posts, and other flowers from the lovely ranch gardens filled the other rooms.

Among the out-of-town guests at the party were Mr. and Mrs. Charles Lewis of Puente and Mr. and Mrs. DuVal Moore and daughter, Mavis, and son, George, of San Francisco.

Mr. and Mrs. Dinsmore, who have established their home on the ranch, have visited here frequently in the past, and had a number of friends in the city before they came here to live.

Among those invited to meet the newcomers, in addition to the friends from the north already mentioned, were the following:

Mr. and Mrs. Wilbur Barr, Mrs. Mona Summers Smith, Mr. and Mrs. Lester Carden, Lloyd Chenoweth, Mrs. and Mrs. L. D. Coffing, Mr. and Mrs. E. F. Elstrom, Mr. and Mrs. Lyman Farwell, Mr. and Mrs. Ed Hall, Mr. and Mrs. Loyal King, Mr. and Mrs. J. A. McKittick, Mr. and Mrs. John P. Scripps, Mr. and Mrs. Howard Sapp, Mr. and Mrs. Fred Rowland, Col. and Mrs. M. B. Wellington, Mr. and Mrs. Emory White, Mr. and Mrs. Franklin G. West, Dr. and Mrs. John Ball, Dr. and Mrs. Dexter Ball, Mr. and Mrs. George Briggs.

Mr. and Mrs. R. J. Chandler, Mr. and Mrs. T. J. Dunning, Mr. and Mrs. Richard A. Emison, Mr. and Mrs. E. C. Flagg, Mrs. Sara Johnston Haddon, Mr. and Mrs. C. H. Holles, Mr. and Mrs. R. C. Holles, Mr. and Mrs. Rex Kennedy, Mr. and Mrs. Hugh Lowe, Mr. and Mrs. H. L. Miller, Mr. and Mrs. J. G. Swales, Mr. and Mrs. Howard Tubbs, Mr. and Mrs. Z. B. West, Mr. and Mrs. Wade Warner, Mr. and Mrs. J. B. Tucker.

Mr. and Mrs. A. J. Crookshank, J. P. Baumgartner, Mr. and Mrs. Sam Nau, Mr. and Mrs. Sherman Stevens, W. Bradford Hellis, Miss E. Gertrude Hellis, Mr. and Mrs. C. J. Cogan.

Mr. and Mrs. Lewis Moulton and Miss Louise Moulton, El Toro; Mr. and Mrs. Glenn Mathis of Villa Park; Mr. and Mrs. A. W. Rutan, Mrs. Margaret Borgmeyer, Mr. and Mrs. B. J. MacMullen, Mr. and Mrs. Fred Forgy, Mr. and Mrs. Horace Stevens, Mr. and Mrs. Milton McMurray, R. O. Winckler.

Mr. and Mrs. Braden Finch, Mr. and Mrs. T. E. Stephenson, Mr. and Mrs. George Jeffrey, Mr. and Mrs. Robert Jeffrey, Mr. and Mrs. William Jeffrey, Mr. and Mrs. I. F. Landis, Mr. and Mrs. Mortimer Plum, Mr. and Mrs. William Thornton White, Jr.

FRIENDSHIP CIRCLE

Friendship circle of the South Santa Ana Christian church spent a pleasant day of sewing and quilting recently at the home of Mrs. C. F. Rathbone at 712 East Chestnut street. Thirty members were present, enjoying a pot-luck luncheon at noon.

Sorority Has Initiation Dinner

Following an evening of informal initiation and fun on Wednesday at the C. D. Hill home on Newport Road, where Miss Jane Hill presided as hostess at a late spaghetti supper, members of Sigma Tau Psi formally initiated Miss Eleanor Evans into their chapter last night were ceremoniously at the E. A. Berker home, 2241 Riverside Drive.

The sorority colors of yellow and green were carried out in flowers and candles in the home, and a corsage of yellow roses, the sorority colors, were presented to the new member. A bracelet with the Sigma Tau Psi crest was also given to her after the ceremony.

Dinner followed at Danigers, where a table was arranged for them with a centerpiece of yellow flowers and lighted tapers.

At any rate, it's an idea. I wonder if my readers have other ideas as to how we might curb the modern cave man husband in this respect?

The wife who writes the following letter would be mighty thankful for such help. And we don't exactly know how many other wives might also profit.

Dear Miss Stoddard: I would welcome the frank opinions of your readers and self on the one subject that fairly makes me boil at the mere thought of it. Perhaps I'm a little behind the times, but nevertheless, I simply can't force myself to keep up with them if this is the so-called modern way of "doing up things."

My husband's associates, practically all, are of the type which one wouldn't call desirable—but of late he has made the acquaintance of a man whose soul delight is beating up or tiff, which all little arguments or tiffs, which all sometimes or another. Well, evidently, my husband thinks this "cave man" business is being "modern" or modern and has proceeded to practice each new "punch and turn" perfected, on me.

A short time ago, on my way to pay a belated call on my mother, I spent the entire afternoon visiting. Arriving home a little later than usual and hurrying as fast as one possibly could with a 3-year-old child, I entered my door to be met with (if I do say so) a crudely swung fist, which didn't exactly improve my looks.

Well, to tell you the truth, I never was so humiliated in all my life! But as the old saying goes I was supposed to "grin and bear it"—I didn't!

I am under the impression that there are still some men roving at large who actually think they are second Tarzans—hence, thinking that is the only way to show just who's the boss. Secretly, I think it's about the lowest thing a man could do!

Having been raised in a respectable family where it would have a somewhat different view from that of my husband's.

Twice now, I have donned dark glasses, smiled and repeated the old story about the door knob mishap to my friends, who were polite enough not to giggle in my face. What they did when my back was turned I do not care.

Anyhow, I am more than a little tired of the whole thing. Perhaps some of your readers have met the same fate and I certainly would appreciate it so much if some of them would drag their skeletons from the closet as I have (although they're not old enough to put there), and help to form a crusade against "cave men" husbands.

I'm all for it, or any possible

Mary Stoddard Wife-Beater-Uppers Come in for Their Share of Consideration Today!

Wife beaters! Oh, yes, we have them right in our midst, even today. They may be found in all classes. If they're in "polite" society we seldom recognize them, because their wives "politely" make some sort of "plausible excuse" for a black eye or a broken nose!

How can we restrain them? Oh, of course, we can always call the police department and have them put in jail! But, if we're in "polite" society, and especially if there are children in school, the publicity which is apt to follow would give the family a sort of "social black eye."

Sometimes when I read the letters from the wives of these great, big, modern hero cave-men I truly believe that a "professional beater-upper-club" would be in order. For instance, when a wife is thus humiliated, she could simply put in an order with the club to have one of its members watch for an opportune moment to give her husband a return shiner.

I wonder if my readers have other ideas as to how we might curb the modern cave man husband in this respect?

The wife who writes the following letter would be mighty thankful for such help. And we don't exactly know how many other wives might also profit.

Dear Miss Stoddard: I would welcome the frank opinions of your readers and self on the one subject that fairly makes me boil at the mere thought of it. Perhaps I'm a little behind the times, but nevertheless, I simply can't force myself to keep up with them if this is the so-called modern way of "doing up things."

My husband's associates, practically all, are of the type which one wouldn't call desirable—but of late he has made the acquaintance of a man whose soul delight is beating up or tiff, which all little arguments or tiffs, which all sometimes or another. Well, evidently, my husband thinks this "cave man" business is being "modern" or modern and has proceeded to practice each new "punch and turn" perfected, on me.

A short time ago, on my way to pay a belated call on my mother, I spent the entire afternoon visiting. Arriving home a little later than usual and hurrying as fast as one possibly could with a 3-year-old child, I entered my door to be met with (if I do say so) a crudely swung fist, which didn't exactly improve my looks.

Well, to tell you the truth, I never was so humiliated in all my life! But as the old saying goes I was supposed to "grin and bear it"—I didn't!

I am under the impression that there are still some men roving at large who actually think they are second Tarzans—hence, thinking that is the only way to show just who's the boss. Secretly, I think it's about the lowest thing a man could do!

Having been raised in a respectable family where it would have a somewhat different view from that of my husband's.

Twice now, I have donned dark glasses, smiled and repeated the old story about the door knob mishap to my friends, who were polite enough not to giggle in my face. What they did when my back was turned I do not care.

Anyhow, I am more than a little tired of the whole thing. Perhaps some of your readers have met the same fate and I certainly would appreciate it so much if some of them would drag their skeletons from the closet as I have (although they're not old enough to put there), and help to form a crusade against "cave men" husbands.

I'm all for it, or any possible

MARY ARNOLD MARRIED IN THE NORTH

Prayer room of the University Christian church in Berkeley was the scene of a wedding of interest to Santa Ana last Saturday afternoon, when Miss Mary Arnold, daughter of Mr. and Mrs. Lee Arnold of Santa Ana, was united in marriage with Raymond Dudley Bayles of Oakland.

White tulle and the pastel tones of snapdragons and larkspur made a pretty background for the service, which was read by the Rev. Wesley T. Ford of the Curtis Oaks Christian church of Sacramento.

The bride was gown in a flowered redingote over dark blue tulle, with a dark blue picture hat and matching accessories and a corsage of gardenias and white bouvardia.

Guests at the wedding were two of her former Santa Ana High school and Junior college friends and their husbands, Mr. and Mrs. Darrel C. Maxson (Vera Mae Smith), of Berkeley, and Mrs. Ford (Grace Haskell), wife of the officiating minister.

After a wedding tea, the newlyweds departed for a honeymoon in Yosemite, and will then make their home in Oakland, where Mr. Bayles is associate in the typewriter business.

The bride is a graduate of the local schools and has been an assistant in the office of Dr. Horace W. Leeding for several years. Her new husband, who was formerly with Therman's typewriter shop in Santa Ana, received his schooling in Utah.

R. N. A. CAMP HAS STEAK BAKE

Golden State Royal Neighbors of America camp baked steaks in Jack Fisher park Wednesday night and then went to the K. of C. hall for a card party.

Charles Tulene and Miss Audrey Steele went high and low awards in pinocle, Mrs. I. Pennington and Mrs. Jennie Tulene in bridge, and Mrs. Della Bunch and Mrs. Vera Pope in 500. The special award went to Miss Irene Pope.

Serving on the committee were Mrs. Marjorie Boyd and Mrs. Ruth Lohmann.

Your Pronunciation, A Help or Handicap?

Reading about parties she's not asked to. And never guessing her poor pronunciation is the reason she's not invited.

"I've BEEN in the theater to see the amACHERS in 'ROMANCE,'" she says gaily to a new acquaintance. She doesn't notice that eyebrows go up in surprise, nor that the people she admires say BIN for BROWN, HOME for HOMES, and THEATER for theater, ROMANCE for romance.

Yet these blunders which are so offensive to educated ears can be overcome. As easy as call the Bahamas the Bahaymas as to call them, incorrectly, the Bahaymas. As simple as say Italian for Italian, mayonaze for mayonnaise, as to scramble them into EYKatalyn, MYnaze.

Once you know what is correct your speech quickly improves. Our 32-page booklet gives you the 450 words most often mispronounced. The interesting story form makes it easy to check your errors, acquire a cultured pronunciation.

Send 10c for your copy of Guide to Correct Pronunciation to The Santa Ana Journal, Home Service. Be sure to write plainly your name, address, and the name of booklet.

ELAINE GOES HOUSE HUNTING

LOS ANGELES. (AP)—Mrs. Elaine Barrie Barrymore said today she is spending most of her time house hunting. She said she and John Barrymore, in putting aside the divorce decree, will not live in their seven-and-a-half acre estate "which takes four gardeners to keep it up," but plan to be a lot happier in a more modest home.

Order Mae West To Answer 'Mate'

LOS ANGELES. (AP)—Actor Frank Wallace's contention that he is the husband of Mae West, buxom movie star, will be heard in court after all.

Miss West's attorneys were instructed yesterday to file an answer to Wallace's suit within 10 days. He claims he married her in Milwaukee, April 11, 1911, and has never been divorced, and he has petitioned the courts to validate this alleged union.

She recently declined to give a deposition or file an answer to the suit.

Columbia Is Jean's Boss

LOS ANGELES. (AP)—Jean Arthur, blonde film star, may not appear on the stage or the radio without the consent of Columbia Pictures corporation.

Superior Judge William Palmer, asked to interpret the contract of Miss Arthur and the studio, ruled yesterday the contract was valid and that the studio controlled her services.

PATIO SCENE OF JOLLY STEAK BAKE

Mr. and Mrs. H. R. Carnahan of 610 East Chestnut street arranged their attractive home patio Wednesday night for a joint steak bake, a group of their friends gathering for the informal dinner.

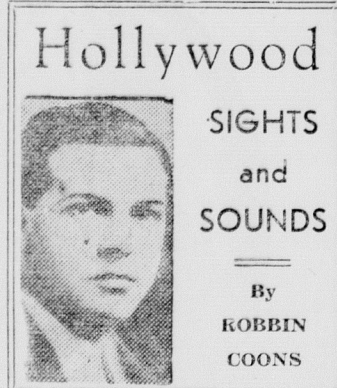

Along the centers of the three tables, waxy magnolia blossoms rested on their shiny green leaves, in pretty contrast to the yellow oilcloth covers.

After dinner, bridge formed the diversion of the evening, with prizes for combined scores at the conclusion going to Mr. and Mrs. Bayne and Marie and Mr. and Mrs. Oscar Carothery.

Other guests were Mr. and Mrs. Willard Swarthout, Mr. and Mrs. Clifford Cole, Mr. and Mrs. Melvin Peterson, Mr. and Mrs. James Dickson, Mr. and Mrs. Bryan Ruddle of Los Angeles and the host and hostess.

IN STAGE SHOW HERE.—Rita Ruth Rayne (left) and Clarence Robinson are two children who will appear at Walker's theater Saturday afternoon in a kiddies stage revue.

HOLLYWOOD.—What to do of an evening bothers few mortals so persistently as your movie star, who presumably could do anything.

To the movie star, whatever entertainment Hollywood offers,

regardless of cost, is merely a routine something-to-do.

Helen Vinson is one who has solved the problem with "something a little different."

Refugees From Boredom

About twice a week the Vinsons-Fred Perry house in Beverly is opened to select refugees from boredom who come to dine, to sit, and to talk. Four, usually, never more than six, including the hostess. (Tennisman Perry is playing in England currently.)

Miss Vinson, no cook but a recipe collector, likes to plan "different" menus, and the procedure sounds quite civilized. A mere sherry, with wafers, quiet but gay coffee and liqueur in the living

room. And then talk, radio, phonograph music.

Talk, did she say? Yes, talk. About pictures—but not exclusively. The latest tidbits and "anything of international interest, such as the casting of Scarlett O'Hara." But general talk, too.

No Trouble Yet
It occurred to me, hearing of this radical something-to-do that Miss Vinson, grouping her guests, might be sitting on a social powder keg. Hollywood has feuds. It has even a few people who hate each other's—er—very attribute. But Miss Vinson, the smartie, hasn't made any mistakes. Not yet, she says wood-knocking.

"It isn't difficult, you see," she explains. "One hears everything so quickly in Hollywood. And then, people at a small party are relaxed, and not so apt to bristle with annoyances as they are, say, at a large cocktail party."

Harlow Feared Auto Crash
Jean Harlow expected to die young—but she thought it would be in an automobile crash. . . . A fortune-teller had advised her to beware of highway travel as far as possible, and she could not help feeling "jittery about it."

She told me this two years ago, enjoying secrecy because it "might worry them." "Silly, isn't it?" she laughed. "I'm trying to forget it, but I can't—quite."

Kansas has the largest flour milling industry in the United States, averaging more than 13,000,000 barrels a year.

NEW YORK. (AP)—The management of Paramount Pictures, Inc., yesterday adjourned its efforts to obtain authorization to increase the common stock from 4,500,000 to 6,000,000 shares.

The meeting—contrary to the long and bitter session of a week ago—was brief. Barney Balaban, president, reported the management proxy committee held more than 64 per cent of the votes in a favor of the increase but lacked the necessary 66 2/3 per cent.

There were less than 1 per cent of the votes expressed against the authorization.

STATE SHOWS NEW WESTERN

"Dodge City Trail," Columbia's new outdoor musical drama with its western background, is the new feature attraction opening tonight at the State theater for an engagement of two days.

Headed the cast are Charles Starrett, Marion Weldon and Donald Grayson, with supporting roles played by Russell Hicks, Si Jenks, Al Bridges and Art Mix.

Laid in the old west, the picture tells the story of a young ranch foreman who rounds up a band of outlaws that kidnap a young girl. Complications arise when the foreman discovers the man behind the gang is the girl's father.

Rounding out the program there will be a Monte Solinis-Tom Kennedy comedy, "New News," a Looney Tune cartoon, "Porky's Duck Hunt," chapter No. 9 of "Flash Gordon," and a newsreel.

Shows at West Coast, Broadway Close Saturday

Programs at both the West Coast and Broadway theaters currently playing, will end tomorrow night, it was announced today by Manager Lester J. Fountain.

At the West Coast, the double bill of "Slave Ship" and "Flash Gordon," co-starring Warner Baxter and Wallace Beery. This is a picture of the adventures of the last slaver, as, with mutiny reddening the decks, it sails on its last desperate voyage. The cast includes Elizabeth Allen and Mickey Rooney. Second feature on the bill is "Flyaway Baby," story of a world air race featuring Glenda Farrell as a live-wire newspaperwoman, and Barton MacLane.

The Broadway program presents Robert Young and Florence Rice in "As Good As Married," a highly entertaining picture which tells the story of a young inventor who suddenly comes into a lot of money, and becomes embroiled in a series of laugh-provoking adventures. Second feature is "The Missus," with Victor Moore, Helen Broderick, Anne Shirley and Alan Bruce. It is a fast-paced comedy, built around a national contest to select "Missus America."

17 PASS LIFE SAVING TESTS

Certificates Given County Men, Women

Examiners' certificates have been issued by the National Red Cross to 17 Orange county men and women who have successfully passed the tests given to life saving instructors and examiners at the Huntington Beach and Fullerton High school plunges, according to a report from Mrs. Laura R. Warren, executive secretary of the Orange county Red Cross council.

The tests were given by Harold Terwilliger, American National Red Cross field representative in first aid and life saving.

Those receiving the certificates are Florence Bagley, Margaret Glenn, and Marion Parsons, of Santa Ana; George Bonner, Paul W. Colburn and Lawrence Barrell, of Laguna Beach; Eloise N. Pickrell and Martelle McKee of Newport; Phoebe LaBoyer and J. Martin Clark of Balboa; Edwin W. Elliott, Delbert G. Higgins and Donald E. Winters of Huntington Beach; Elizabeth Downie of Orange; Flannetta Downie of Fullerton; Clarence E. Bishop and Talbot Bielefeldt of Placentia.

The certificates authorize them to conduct junior and senior life saving tests in the several chapters of the county. They are required to review their tests after Jan. 1, 1938.

Dr. John Wehrly, chairman of Santa Ana chapter, announces that senior life saving certificates have been received for Vic Allemen, John D. Forsyth, Dave Hunter and Kenneth Nissley of Santa Ana, who were instructed by Jess Haxton and examined by Marion E. Parsons; and that Dave Hunter and Kenneth Nissley are employed as lifeguards at the Y. M. C. A. pool, where the former is credited with rescue of a young boy a few days ago.

TRADE SHOWS PROGRESS

NEW YORK. (AP)—Most divisions of trade were adjusted to a steady rate of progress this week, Dun & Bradstreet said today in its summary of trade and business.

"Industrial operations shed a fraction or two," the agency reported, "but the major units revealed little retrogression, except for the interference encountered in localized strike centers. More numerous requests for summer merchandise contributed heavily to the expansion of wholesale volume, fall buying being confined chiefly to lines on which higher quotations were posted."

In spite of a four-week strike siege, steel plants continued operation at 75.9 per cent of capacity, which was off 0.7 per cent from last week but still remained ahead of the 70.2 per cent of capacity output for the like period in 1936, the resume stated.

Retail trade, stimulated by vacation requirements and warm weather, reflected increased demands for gingham frocks, plaid linen jacket suits, hand bags, shoes and millinery, the review continued. Sales in men's suits were highest since Easter. Volume was mainly in gabardines, tropical worsteds and flannels.

Retail sales for the country as a whole gained 2 to 5 per cent over the preceding week and pushed 12 to 22 per cent over the like 1936 week, the report said.

In major areas gains over last year's figures were: New England, 10 to 18 per cent; East, 12 to 25; Northwest, 17 to 25; South, 15 to 28; Southwest, 10 to 18; and Pacific Coast, 7 to 17.

Judge Is Champ Flower Wearer

MARYSVILLE, Kan. (AP)—Marysville's No. 1 flower man is Judge J. B. Robinson. He has worn a flower in his coat lapel everyday for 60 years.

Judge Robinson, 86, said he started the custom when he lived at Hoag, Neb., and "I don't suppose I've missed 25 days in all that time."

There are certain insects that eat plant tissues. This group includes caterpillars and other worm-like forms, beetles, and grasshoppers. They feed by biting, chewing, and swallowing portions of the foliage of the plants.

Sometimes, the flowers are attacked also. If the infestation is bad, a complete defoliation may occur.

These ugly, obnoxious worms of the caterpillar type turn into the most beautiful butterflies. The caterpillar of the painted lady butterfly feeds on the foliage of the hollyhock and calendula. Among the caterpillars are cabbage worms and looper, hornworms, rosebud worms, cutworms, woollybear caterpillars, webworms, leaf rollers, leaf tyers, bag worms, cutworms, etc.

Each type of caterpillar feeds on certain, definite host plants, but regardless of the type of worm or plant, the same treatment will suffice.

There are a number of caterpillars that bore the length of the stem, eating out the heart. Usually their work is not discovered

Thinks Students More Serious

AMES, Ia. (AP)—Dr. Charles E. Friley, president of Iowa State college, believes college students today are more serious-minded than those of any other period during the last 25 years.

"Students recognize the confused situation of the outside world and the vagueness of objectives characteristic of our present civilization," Dr. Friley says, adding that he finds his own student body "more serious-minded and more in earnest than at any time during the last quarter of a century."

Dr. Friley says he believes parents are realizing more today than before the necessity of giving their children an education so they can cope with the world.

Scientists at Columbia University in New York have grown a Turkish tobacco stalk six feet tall in chemical nutrients.

until the stem wilts and breaks.

Another group of chewing insects is the beetle. Varieties are the rose, cucumber, blister, and flea beetles, and rose weevil. These are a little difficult to combat because they are able frequently to deposit their eggs before they die.

Grasshoppers and katydids eat the tender growth and sometimes the foliage, and eggs are found on stems or in the fallen leaves on the ground. Slugs and snails are quite often found infesting the garden, but they may be controlled with a good bait.

Controlling Caterpillars and Beetles

These types of insects that live by biting off and swallowing the plant tissues are controlled by poisoned bait. The base for these poisons is usually an arsenate of lead, either as a dust or as a spray. The general proportion is one pound of arsenate of lead to ten gallons of water. This is good for caterpillars and beetles.

For grasshoppers, slugs, snails, and cutworms, use a bait made up of Paris green or white arsenic (one ounce), one and one-quarter pounds of dry bran, four fluid ounces of molasses or syrup, one-half pint of water.

For general garden convenience, there are a number of good baits already on the market.

L. A. Council Slaps Vetoes by Mayor

LOS ANGELES. (AP)—The city council overrode the mayor's veto on five items of the city budget and sustained it on four.

The council stood by its guns on cutting the police secret fund from \$90,000 to \$36,000; on reduction of police automobile funds \$15,000; refusing to provide \$100,000 for a branch city hall at Wilmington and \$25,000 for a north outfall sewer.

COOL WINDS ROUT HEAT

Scorching Weather in
Midwest Kills 14

CHICAGO. (AP)—Cooling winds that routed temperatures in the upper nineties and hundreds afforded a measure of relief to the heat-stricken mid-continent today.

At least 14 deaths were attributed directly to the scorching weather. There were scores of prostrations.

Weather bureau records listed Concordia, Kan., with 106 degrees as the nation's hottest spot yesterday. Shenandoah, Iowa, reported an unofficial mark of 107.

Other maximum temperatures included: Dallas, 102; Phoenix, 102; Salt Ste. Marie, Mich., Little Rock, Ark., Kansas City, Omaha and Wichita, Kan., 100.

Church Retreat Group Convenes

SAN FRANCISCO. (AP)—Archbishop Samuel A. Stritch of Milwaukee, Wis., was asked to preside at the first panel today as the side of the national convention of the Catholic Laymen's Retreat Association of the United States opened in San Francisco.

Members of the Catholic hierarchy, clergy and laity gathered here from all parts of the nation.

Succeeding panels will be presided over by Archbishop John J. Cantwell of Los Angeles; Bishop Thomas K. Gorman of Reno, Nev.; Bishop Gerald Shaughnessy of Seattle; Bishop Robert J. Armstrong of Sacramento, Calif.; Bishop Edward J. Kelly of Boise, Idaho; Bishop Joseph F. McGrath of Baker City, Ore., and Bishop Emmanuel B. Leclercq of Corpus Christi, Tex.

U.S. Speeds Aid to Injured Islander

SAN PEDRO. (AP)—Coast guard headquarters here dispatched an amphibian plane, the cutter Hermes and a speed boat to Santa Cruz island today upon receipt of a radiogram that Judson Caire, ranch foreman, had been badly injured.

The nature or extent of Caire's injuries were not given in the message sent from the station at Anacapa island. It requested transportation for care to the mainland. Santa Cruz is 80 miles northwest of this harbor.

Bowl Concert Master Only 26

HOLLYWOOD. (AP)—The Hollywood Bowl orchestra will have as concert master during the coming season Bronislaw Gimpel, 26-year-old native of Poland. He will be the youngest artist ever to have held the post.

Gimpel, violin soloist with the Vienna Symphony when he was 13 years of age, has been decorated by the kings of Italy and Sweden.

GREAT DAY COMING—Arriving in England, Mrs. J. Borden Harriman, new minister to Norway, said she believed the U. S. would soon have a woman president.

GIRL, 10, DIES FROM ATTACK

NEW YORK. (AP)—Mary Maglione, 10, died today of injuries suffered when she was attacked in the basement of a Bronx theater June 16.

As a result of her death, the district attorney's office said a murder indictment would be sought next week against William Ray, 26, negro porter employed at the theater.

Ray, arrested after the girl was found stuffed in a ventilating duct under the theater's stage, was quoted by District Attorney Samuel J. Foley as saying he had lured her into the basement and attempted to assault her, striking her on the head with a brick when she resisted.

The negro, held on a charge of felonious assault, is under observation at Bellevue hospital.

WORKER TELLS DOUGLAS 'PLOT'

LOS ANGELES. (AP)—Attorneys for the Douglas Aircraft company today were to cross-examine Edward Friedlander, former Douglas employee, on a story he told late relations board hearing.

He testified Douglas officials offered him a bonus of \$5000 if he would go to the plant of the Northrup Corp., Douglas subsidiary, organize the Aircraft Workers' union and "bust up" the C. I. O. union there.

The hearing is on charges that the Douglas company violated the Wagner labor act by discharging 38 employees for union activity. The company is accused also of fostering a company union.

Actress Rescues Actor from Lake

HOLLYWOOD. (AP)—Universal Studios reports that Kent Taylor, film actor, was rescued from drowning in Lake Arrowhead, 80 miles from here, by Irene Hervey, actress.

While acting he slipped from a boat, striking his head as he fell into the water, and the actress grabbed him, holding on until the camera crew pulled him aboard. He was given first aid at the hotel.

MONEY FUND BOOST ASKED

LONDON. (AP)—Sir John Simon, chancellor of the exchequer, today asked the house of commons to increase the exchange equalization fund by \$1,000,000,000 to support Britain's monetary agreement with the United States and France.

This jump, Simon told commons, would bring the stabilization fund to \$2,750,000,000 and was made necessary by the unsettled international situation.

Sir John said he would explain later if France and the United States planned similar moves.

"In addition to the recent release of hoarded gold," he declared, "there has been much financial disturbance abroad and a general tendency for capital funds to move to London."

"While I consider there is no reason why the present unsettled condition in connection with the international movement of capital should be permanent, the situation compels us to make further provision as an insurance against additional movements into sterling."

MOTHER SUES SON FOR AID

Rich Medicine Maker Fights Support Plea

LOS ANGELES (P)—A 72-year-old mother, Mrs. Maggie Musick, was suing her son, Howard L. Musick, wealthy patent medicine manufacturer, in municipal court today for support.

"I have been destitute for two years," she testified. "My son hasn't given me a cent in all that time. I'm on the county now."

In her complaint she quoted her son as saying: "She went through with \$69,000 I'd entrusted her with in 1929 while I was going through a lawsuit—and I'd rather spend my money now fighting than give her a dime."

Mrs. Musick admitted under cross examination that her son had given her nearly \$50,000 at one time for safe keeping, but declared she had returned most of it to him.

"Howard also gave me a deed to some of his property," she said, "to keep his wife, Elizabeth, from getting it. The courts forced me to deed half the property back to Elizabeth. The other half I deeded to a lawyer to defend me against a suit brought by Howard for \$42,500."

Subsequently it was shown that Musick received a \$42,500 judgment against his mother.

FIX COLLAPSE DEATH BLAME

LOS ANGELES (P)—The "party or parties" in charge of construction work on an eastside building were blamed for the collapse of the structure and the death of two workmen, in a coroner's jury verdict forwarded to the district attorney's office today.

Testimony that sections of the steel framework which fell upon the workmen were held together with only one bolt although there were holes for three was given at the inquest by Clyde Dirlam, county building inspector.

The two victims were A. C. Gustafson and William Mitsky.

Leaves Estate to Sister She Sued

LOS ANGELES (P)—Once accused by her sister, Mrs. Ada Seely Bayly, of a clandestine love affair with her husband, Miss Mabel Edna Seely, socially prominent woman who ended her life recently, left her entire estate to the sister, the terms of the woman's will disclosed today.

Miss Seely, who was reported by police to have jumped from the notorious "suicide bridge" in Pasadena, left an estate with an income estimated at more than \$3000 yearly.

Auxiliary to Put Prize on Display

A display of what is in store for persons who attend the American Legion auxiliary's dance July 15 will be seen at Fourth and Main streets all day Saturday when the auxiliary puts on exhibition there the Covered Wagon trailer which is to be awarded as a prize at the dance.

In connection with the dance, to be staged in the Legion hall, a style show will be put on by local merchants. Music will be provided by Lacy Swain's orchestra.

Dies After Fight In Landing Salmon

GRANTS PASS, Ore. (P)—Marion Angus Mark, 44, Los Angeles manufacturer, died suddenly Wednesday afternoon a few minutes after a long struggle in landing a Rogue river salmon, it was learned today.

Mark re-set his pole, left his wife to watch it, and went to his car to repair a tire. He was found unconscious and when a physician arrived he was dead. Mrs. Mark said her husband suffered from a weak heart.

Free Grant's Kin On Check Charge

LOS ANGELES (P)—A bad check charge against Isaac Hart Purdy, Jr., 23 who said he was a great-grandson of Gen. U. S. Grant, was dismissed today.

A misunderstanding in the transfer of funds to a bank from a \$150,000 trust fund caused a hotel to request Purdy's arrest after three checks totaling \$125 were returned by the bank.

Hertz Heads S.F. Music Project

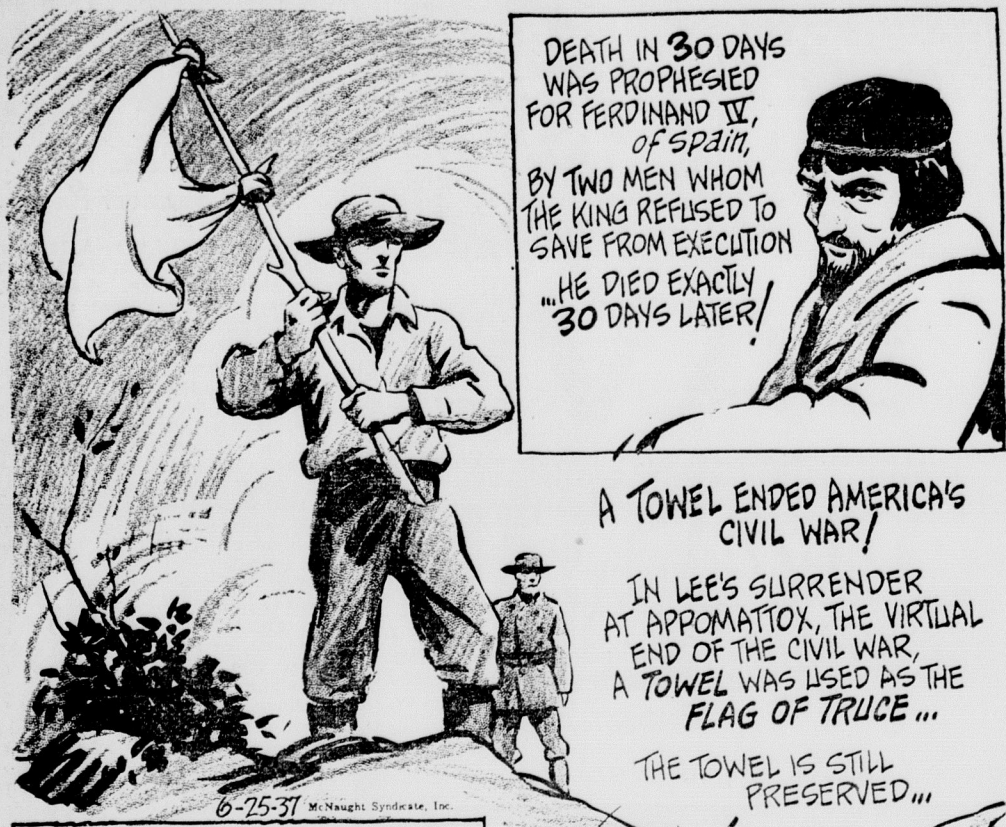

LOS ANGELES (P)—State headquarters of the Federal Music Project announced today the appointment of Alfred Hertz, musical conductor, as head of the project at San Francisco. He succeeds Ernst Bacon.

Grounded Boat Is Refloated

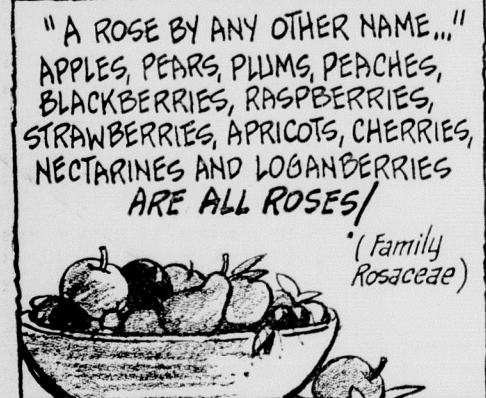

JACKSONVILLE, Fla. (P)—The banana boat Guardian, which sent out a distress call early today after she went aground off the north-east coast of Cuba, reported later she was afloat again and proceeding to Jacksonville.

GAINES

Gaines takes a holiday! Or rather, Bodenhamer takes a holiday, and I get one, because he got one, which sounds complicated. His holiday gave him an urgent craving to write, so we'll turn the field over to him.

Now we'll pick up Bodenhamer, who probably needs picking up by now!

"Dear Brick: You remember how I've been learning things from the Bodenhamer yacht Conchita ever since my first sail, when I gained fame by hoisting the jib upside down and darned near went aground before I got it right side up.

"Well, I've been learning some more things. It's a long story, but it proves you can't count on a boat but you can count on the people down in the Newport Harbor district. They're swell—the people, I mean.

"You see I took Jack Ellwanger, his wife Nell and Betty, my boss'n (and I bet yours always is too) for a moonlight ride down the bay the other night. There wasn't any wind, but the bay was calm and the moon was bright. And thanks to \$2 worth of mechanic's service, \$5 worth of parts and three days of my own labor, the one-lung motor was running.

"I learned another thing. You not only should put jibs right side up, but you should keep oil in the motor. I didn't! We'd been down to the harbor entrance and were a short way back when the poor little mail order motor ran a temperature and died.

"Jack and I paddled in to somebody's private dock and walked blocks and blocks to a Balboa garage and bought a can of oil. There was a picket gate on the dock, and Jack tore his pants on it coming back. Now he has a cold.

"Jack says it's the first time he ever walked back from a boat ride, and furthermore it's his first yachting trip, and he hopes the last one. Frank Orr will appreciate that. He took one trip with us and helped paddle a sadly becalmed boat for more than a mile. That was before the motor ran before I wrecked it again.

"Well, Jack held matches and burned his fingers and swore while I poured oil in the motor and burned my fingers on the exhaust pipe and swore.

"But it seemed the spark plug was fouled with oil and the heat. Cleaning a spark plug isn't a major operation, but not one of the six wrenches up the bay would fit it. So after a half hour of futile cranking we gave up.

"That's when we started learning what swell folks there are around the bay. We hoisted the sails (right side up), and oozed a hundred yards up the bay on a whisper of breeze. Then two fellows in a speed boat chugged out and gave us a tow up to Tommy Bouche's new harbor master's office. There we left Conchita.

"Our next Samaritan was R. F. Valley, who operates the speed boats at the ferry landing. He took pity on a greasy skipper and three weary passengers and drove us the four miles over to Beecher's Boat works, where we had left Jack's car hours before.

"It seemed next morning that Conchita was clattering up the harbor master's float, so the boss let me off for 'an hour and a half' to salvage the invalid. The spark plug was the key to the situation and this time I had tools, so I put-putted up the bay and turned Conchita over to Charley Beecher.

"Of course that left me four miles from my car, but a swell feller who lives on 10th street, Balboa, picked me up and took me three-fourths of the way. He's another reason I like the harbor district, but I got his name.

"People have been saying for some time that I'm Captain Jonah, but you'd think some of the sour grapes would blossom some other day. Not so—I trusted that gasoline gauge like a brother, but on the way home I ran out of gas. Darned near 11 o'clock and me with a beat to cover!

"Then I met some more nice folks. A lady at the country club let me use the phone and cash a check. J. E. Keating came driving up a mile or more from his Country Club service station and just charged me the regular price for five gallons of gas. No charge for the service!

"We all survived, but Jack won't speak to me and Betty wants to trade the boat for a horse and buggy.

"You oughta come down this week-end and go sailing with me. But bring your water wings, an extra pair of oars, a can of gas, three weeks' food supply, a bicycle and a pair of roller skates. We'll trust to luck—and the helping hand at the harbor.

"Yours nautically, Paul (Give-Us-A-Tow) Bodenhamer."

DROP RELIEF CHISELING CHARGE IN COSTA MESA COURT

PAIR TO PAY AMOUNT OF CHECKS

Mesa Couple Will Make Restitution of \$86 Obtained From SRA

COSTA MESA. — Two residents of this community charged with relief chiseling were freed of the charges today when they agreed to make restitution to the state on a monthly payment basis.

Mr. and Mrs. Frank Logan, 220 East Twentieth street, were facing prosecution in a complaint signed by Special Investigator Jack E. Barton, representing State Controller Harry B. Riley. They had pleaded not guilty and had demanded a trial by jury.

But with their agreement to make restitution of SRA relief checks received while Logan was employed by the Griffith Construction company, the charges were dropped.

Barton had signed complaints against the Logans, charging them with four counts of petty theft. The charges involved receiving \$86.52 in SRA relief checks during March and April while Logan assertedly earned \$166.50 working for the construction firm during the same period.

The plan of prosecution was to have launched a campaign against relief chiseling, and have threatened to prosecute all persons who fraudulently accept relief. Numerous cases now are under investigation in the county, Barton said. Purpose of the campaign is to reclaim all funds which have been received illegally by persons on relief. A majority of the cases investigated and prosecuted concern persons who get private jobs and continue to accept relief checks. Others concern those who misrepresent their financial status in order to get government relief money.

AID GROUPS AT GROVE MEET

GARDEN GROVE. — Circles one and two of the Woman's Aid society of the First Methodist church, meeting Wednesday at the homes of Mrs. A. F. Mills and Mrs. Wesley Lamb, devoted the time to working on quilts for the Spanish American Institute at Gardena.

Mrs. Mills was assisted by Mrs. Laura Gedney in serving luncheon for the Circle one meeting, which was an all-day affair. The business session was conducted by the new president, Mrs. H. E. Millard. Mrs. Emmett Smith invited the group to meet at her home on Verona road in July. Others present were Dr. and Mrs. Charles P. Seitter, Mrs. T. C. Natland, Mrs. G. R. Reyburn, Mrs. Ralph Chaffee, Mrs. H. E. Millard, Mrs. J. D. Conner, Mrs. W. M. Adams, Mrs. I. F. German, Mrs. B. Halliday, Mrs. William Shewalter, Mrs. Paul Applebury, Mrs. J. M. Chilson and Mrs. S. S. Jackson of Los Angeles.

A picnic at Anaheim park in July was planned by Circle two members at the business session conducted by Mrs. Percy Prior, who also reported on the recent Federated Aid meeting at Oceanview. Present were Mrs. Lem Wylie, Mrs. Elmer Hall, Mrs. Conner, Mrs. H. E. Millard, Mrs. J. D. Conner, Mrs. W. M. Adams, Mrs. P. Williams, Mrs. E. F. Hadley and sister, Mrs. Elmer Launiers, Mrs. Robert McDonald, Mrs. Percy Prior, Mrs. J. M. Chilson, Mrs. S. C. Certy and Mrs. J. O. Arkley.

REV. HOFFMAN IS HONORED

FULLERTON. — For the sixth consecutive year, the Rev. E. Dow Hoffman, pastor of the Fullerton Methodist Episcopal church, has been returned to the Fullerton pastorate.

Announcement was made following the close of the Southern California annual conference.

Chief Delays Celebration for Orange Kids

ORANGE. — Merchants may sell fireworks here, but the kids can't shoot them. That is until July 3, it was announced Thursday by Chief of Police George H. Franzen.

It may cost the culprit a fine of \$100 or 30 days in the county jail for disobeying the law, he added.

As July 4 falls on Sunday, fireworks may be shot on July 5, he said, the day which will be generally celebrated.

Incinerator Causes Blaze

ORANGE. — A fire caused by sparks from an incinerator caused a grass fire endangering the home of C. D. Davis, 345 North Center street, it was reported by Orange firemen Thursday, who put out the blaze. The call came in at 1:10 p. m.

WHO WEARS THE PANTS HERE?—That isn't a difficult question to answer. The meek old Hollander at right not only wears a voluminous garment that looks like a skirt, but he's letting mamma cast the vote for the family. The scene is in Volendam, The Netherlands, when the picturesque inhabitants took part in elections for the second chamber in Holland.

MISSION GROUP ENTERTAINED Orange Churches to Unite For Sunday Production

ORANGE. — The Woman's Home Missionary society of the Methodist church was entertained by Mrs. A. R. Fernald and her daughter, Miss Lela Fernald, in their home on West Palmyra avenue Thursday afternoon, the hostesses assisted by Miss Mary Bogue and Miss Lela Thornburg.

Orange Churches to Unite For Sunday Production

ORANGE. — A play sponsored by all Orange churches is to be given Sunday evening in the Methodist church, "Death Takes the Steering Wheel" is the title of the production.

The play is based on an actual court record of a drunk driving case, and was arranged by George J. Hammond, who will take one of the parts. The object of the production is to impress the public with the immense toll taken by automobile accidents.

A cast of 21 local citizens will assist in the production. Those from Orange taking part are the Rev. Robert B. McAuley, the Rev. W. R. Holder, W. H. Chatain, Thomas Douglas, R. H. Winters, the Rev. Arthur T. Hobson, Miss Doris Howell, Miss Frances Wilbur, Lon Foster, A. Haven Smith, C. E. Lush, Alvin Allen, C. I. Thomas, V. D. Johnson, W. O. Hart, J. E. Baker, W. W. Perry, J. A. Campbell, Mrs. R. W. Jones, Mrs. Minnie Neville and Mrs. Alice Burns.

A bagpipe solo later was played by the Costa Mesa visitor, after which the costumed Nichols was "revived" and escorted back into the hall by Bob Robinson and Ben Brubaker.

Douglas was presented the president's pin by Nichols, who in turn was presented the past president's pin by Dr. McAuley.

Other officers elected to serve the club for next year are secretary, C. H. Robinson; treasurer, Ben Brubaker; directors, H. D. Nichols, Ed Gehl, Karl G. Gerner, Henry Walsworth, Dr. R. B. McAuley, C. A. Palmer and Clyde Watson.

Midway City Literary Tea Is Benefit for P. T. A.

MIDWAY CITY. — Mrs. Armand L. Heil, Mrs. Vernon Heil, Oceanview, and Mrs. George Harding, Bolsa, entertained with a musical and literary tea Wednesday afternoon for the benefit of the High School P. T. A. student loan fund.

The affair which was held at the Woman's clubhouse, featured a program which included poetry, a play and violin music. The play this year's Pulitzer prize winner, "You Can't Take It With You," was read by Mrs. Mona Summers Smith of the Santa Ana library.

Miss Cora Henderson of the Huntington Beach High school gave a comprehensive review of "Modern Poetry" and Sumi Adyama, U. S. C. student, delighted an appreciative audience with violin numbers.

A picnic at Anaheim park in July was planned by Circle two members at the business session conducted by Mrs. Percy Prior, who also reported on the recent Federated Aid meeting at Oceanview. Present were Mrs. Lem Wylie, Mrs. Elmer Hall, Mrs. Conner, Mrs. H. E. Millard, Mrs. J. D. Conner, Mrs. W. M. Adams, Mrs. P. Williams, Mrs. E. F. Hadley and sister, Mrs. Elmer Launiers, Mrs. Robert McDonald, Mrs. Percy Prior, Mrs. J. M. Chilson, Mrs. S. C. Certy and Mrs. J. O. Arkley.

GROVE LEGION TO ELECT RESEARCH TRIP IS SUCCESS

OCEANVIEW. — Marion Speer returned recently from a successful research trip north of Dale.

Speer, in company with A. C. Merrill, Fullerton, were looking for a rock of certain type to be sent to Rochester, Minn., where it will be used in construction of a monument being erected by the Isaac Walton league. A rock from each state in the union will be used in building this unusual memorial, Speer said.

Party Honors Park Resident

BUENA PARK. — Mrs. William Eberle was honored on her birthday anniversary with a luncheon and bridge party given at the Oldham residence on Crescent street Wednesday by Mrs. J. R. Oldham and Mrs. W. E. Davis.

After the afternoon of bridge Mrs. Eberle was presented with a card table.

Ramm Rites Are Set Saturday

ORANGE. — Funeral services for Mrs. Ottile Ramm, 80, who died Tuesday evening at her home near Anaheim, will be held Saturday afternoon at 2 o'clock at the Shannon funeral home.

Services will be conducted by the Rev. A. C. Bode and the Rev. Kenneth Ahl, pastor and assistant pastor of the St. John's Lutheran church, in which the deceased held membership. Burial will be in St. John's Lutheran cemetery.

ORANGE CLUB LEADER IS 'BURIED'

ORANGE. — Hilarious from start to finish, the installation of the new Orange Rotary club president, Tom Douglas, and retiring of the outgoing president, H. D. Nichols, was accomplished Thursday to an accompaniment of a real coffin, Scotch costume, bagpipe music and a typically garbed "undertaker."

A "court" of club members found the retiring president guilty of various crimes, among them that of fining members so often and heavily that families of the victims were forced to seek charity. Sentenced to death, the prisoner, bound and tied with a black blindfold, was "slugged," "shot" and placed in an honest-to-goodness coffin by the "undertaker," James Donegan.

Palbearers, led by Murdoch Mathewson, Costa Mesa, in full Scotch regalia, and playing the bagpipe, led out the "corpse." The palbearers also wore rakish Scotch caps and kilts of plaid gingham, and clothes line sporrans. They were Frank Collins, Don Smiley, Kemper Anderson, Karl Giesbrener, Walt Weimer and Henry Walsworth. The procession was followed by the new president, Tom Douglas, also in kilts, and wearing his clan insignia. Thus Past President Nichols joined the ranks of the "dead ones," as was expressed by Dr. Robert B. McAuley, program chairman.

A bagpipe solo later was played by the Costa Mesa visitor, after which the costumed Nichols was "revived" and escorted back into the hall by Bob Robinson and Ben Brubaker.

Douglas was presented the president's pin by Nichols, who in turn was presented the past president's pin by Dr. McAuley.

Other officers elected to serve the club for next year are secretary, C. H. Robinson; treasurer, Ben Brubaker; directors, H. D. Nichols, Ed Gehl, Karl G. Gerner, Henry Walsworth, Dr. R. B. McAuley, C. A. Palmer and Clyde Watson.

PLAY FEATURES MISSION MEET

ORANGE. — A play entitled "Christian Family Brown" was one of the features of the June party of the Woman's Fellowship of the Presbyterian church, held Thursday afternoon, as more than 200 women of the congregation were entertained in the lower auditorium of the church.

Taking part were Elizabeth Welsh, Stella Christ, Melba Estes, Volleen Hobbs, Bob Niquette, Ralph Woods and Bobby Holm. A beautiful tableau of a June bride and her party was enacted by Mrs. Pearl McAuley Phillips and her sister, Miss Agnes McAuley, Fullerton, and Barbara Jean McAuley, Miss Dorothy Filtham sang.

The meeting was opened by devotions given by Mrs. J. B. Wilbur, and a short business meeting led by the president, Mrs. E. H. Smith. She introduced the June chairman, Mrs. Vern O. Estes, who in turn presented her program chairman, Mrs. Vernon Valentine, Mrs. Justin McGill presiding at the tea table, and in the receiving line were Mesdames E. H. Smith, Vern O. Estes, Arthur Bauer and Robert B. McAuley.

HONOR SCOUTS AT BREA

BREA. — Troop 1, Girl Scouts of Brea, were presented with a silk flag by Warwick camp auxiliary of United Spanish War Veterans at the American Legion hall Wednesday evening.

Major R. H. Lee of Warwick camp made the presentation, after which the girl scouts gave exhibition drills, folk dances and patriotic songs.

Mrs. Russell Sage is captain; Ruth Livingston, lieutenant, and Mrs. Ralph Nicodemus, troop committee chairman. These officers who are members of the auxiliary are sponsoring the work of the Girl Scout troop.

LIQUOR TOPIC FOR LIONS

GARDEN GROVE. — The liquor situation today as compared with before and during the prohibition period was the subject upon which the Rev. Perry Schrock, pastor of the Santa Ana Congregational church, addressed members of the Garden Grove Lions club Wednesday.

Conditions today are worse than at any previous period, he said, liquor drinking being the popular rather than the disgraceful thing to do, as it was considered in past times.

The nominating committee, C. K. Simpson, E. A. Wakeham, and L. W. Schauer, gave its report naming Dr. J. C. Kraushaar for president; J. W. Crill for first vice president; George Tobias, second vice president; Kenneth Dunagan, secretary; Clair Head, treasurer; Leonard Burr, tail twister and E. O. Fulson, lion tamer. Nominated as members of the board of directors were Leonard Burr, Rodney Collins, Donald Vana, and Leslie Wright. The election will be held next week.

A meeting of the board of directors was announced for Monday evening at the First National Bank. Allen Goddard was a guest at the luncheon.

Pastor Returned To La Habra

LA HABRA. — Rev. Arthur T. Kent was returned to the First Methodist Episcopal church of La Habra at the close of the General conference which convened recently.

OFFICE by Nelly Graf

At the office, the days now flew for Patty Lou. She no longer minded the old typewriter, the wobbly desk with slivers that made runs in her stockings, or the airless corner where she worked. Mardell's meanness had not even made an impression on her good nature and efficiency—but Mardell was not through.

ON the evening before the contract for the Greenwood Dam and Spillway was to be awarded, Mardell stayed late at the office. As soon as Mardell saw that she had gone, she telephoned Dale. "Dale, dear," she cooed, "could you come over to my apartment this evening? There's something I want to talk over with you."

"Dale's momentary silence indicated his surprise. "I'll have to see what Patty Lou's plans are," he said.

"Gracious!" Mardell's tone held no hint of her rage. "Can't you go any place without consulting her?"

Then, before Dale could reply, she went on, playing her hunch with daring.

"You've guessed my secret, Dale—yours and Patty Lou's. And I want to do something for her. But a surprise, you see. I want to talk to you first."

PLAN LEGION ARMISTICE PARADE

FULLERTON. — Fullerton will be host to the American Legion parade on Orange county at the annual Armistice day celebration this year, it was announced following a recent meeting of the Fullerton post.

Stanley Chapman and Dave Lewis were nominated for commander. Other nominations and installation of officers will take place at the July 1 meeting. David R. Day, present commander of the Fullerton post, is attending the D. A. V. convention in Ventura.

TEACHERS WILL GET RAISE

FULLERTON. — Mrs. Sidney Chapman, recently elected member of the board of trustees of Fullerton Union High school and District Junior college, was elected clerk of the board at a recent meeting.

Salary increases for faculty members were approved with scale ranging from \$1525 to \$2800, depending on years of service, with \$100 bonus over the regular schedule for master's degree, and an additional \$100 for doctor's degrees. Dean of men, dean of women and heads of departments are to receive \$100 above schedule.

Representatives of all Kiwanis clubs of north Orange county petitioned members of the board for use of the high school plunge during vacation days as part of the recreational program.

CALL ON Y. L. FRIENDS

YORBA LINDA. — Mr. and Mrs. J. A. Zwaskha of Los Angeles, former residents of Yorba Linda, visited with friends here over the week end. Mrs. Zwaskha is a former member of the Yorba Linda Woman's club.

The per diem wage for each workman or mechanic of each craft or trade required to execute the contract shall be based upon a working day of 8 hours and equal to the above prescribed hourly wage rate, multiplied by the aforementioned number of hours constituting a working day.

Double wages shall be paid for work on Sundays and legal holidays and one and one-half wages for all other overtime; said legal holidays being defined as January 1st, February 22nd, May 30th, July 4th, Labor Day, Thanksgiving Day and December 25th.

Each bid must be accompanied by a certified or cashier's check or bond for 5% of the amount of the bid, made payable to the order of the Board of Education of Santa Ana, California; shall be sealed and filed with the Secretary of the Board of Education, at 1012 North Main Street, Santa Ana, California.

The above mentioned check or bond shall be given as a guarantee that the bidder will enter into contract if awarded the work, and will be declared forfeited if the successful bidder refuses to enter into said contract after being requested so to do by the Board of Education of the said District.

The successful bidder will be required to furnish a labor and material bond in an amount equal to 50% of the contract price, said bond to be secured from a surety company satisfactory to the Board of Education. Contractor shall furnish compensation, and

LEGAL NOTICE

NOTICE TO CONTRACTORS

SEALED BIDS will be received by the Board of Education of the City of Santa Ana, State of California, for the Reconstruction of Units "C" and "E" of the Edison Elementary School, Santa Ana School District, in accordance with plans and specifications prepared therefor by Frederick H. Eley, Architect. These bids to be filed at the office of the Board of Education of the City of Santa Ana, 1012 North Main Street, Santa Ana, California, up to 7:30 p. m. Monday, June 28th, 1937, said bids thereafter on same day to be publicly opened and read, at the above address. No bid will be accepted after the time specifically mentioned.

Separate bids only will be entertained for the following segregated parts of the work. Contractors shall state clearly in their application the particular segregation of work for which they desire plans.

1. The General Work
2. Plumbing Work
3. Electrical Work
4. Furnace Heating Work
5. Masonic Asphaltic Floors

Bids will not be accepted from any contractor to whom a proper form has not been issued. Enclosed with each bid must be a Certified Check, or Bidder's Bond, in an amount of not less than ten percent (10%) of such bid, made payable to the Santa Ana School District. The amount so deposited shall be an evidence of good faith, and is to guarantee that the contractor awarded work will duly enter into the necessary contract and provide bonds as called for in the General Specifications. When such documents are executed the amount so deposited will be returned. All deposits will be returned to unsuccessful bidders at close of meeting, excepting deposits of those contractors whose bids are being considered.

Plans and specifications for examination are on file in the office of Frederick H. Eley, Architect, 109 Orange Avenue, Santa Ana, California; at the office of the Board of Education, 1012 North Main Street, Santa Ana, California; and at the Orange County Builders Exchange.

Applications for plans, specifications, and proposal form shall be made to the office of the Architect, 109 Orange Avenue, Santa Ana, California, or to the office of the Board of Education, 1012 North Main Street, Santa Ana, California, and at the Orange County Builders Exchange.

Each bid must be accompanied by a cash deposit of Twenty-five (\$25.00) Dollars. Deposit will be refunded if plans and specifications are returned in good condition, and at the time specified, to the office of the Architect, 109 Orange Avenue, Santa Ana, California; otherwise it will be forfeited.

All bids must be on proposal forms issued by the Board of Education, and bids will not be accepted from any contractor to whom a "Proposal Form" has not been issued.

The contractor to whom the contract for this work may be awarded, also all subcontractors, will be required to pay the general prevailing rate of wages to workmen, laborers or mechanics employed on the work, and the minimum allowable hourly scale for various trades shall be as set forth in the following list determined by the Board of Education of the City of Santa Ana, in accordance with Chapter 397, Statutes of 1931, State of California.

BASEBALL

By SID FEDER

Rick Ferrell will just love this, but he'll have to blame it on Joe Cronin.

It seems (to Cronin) that the sudden surge of his Red Sox—eight wins in nine starts—dates back from the trade that sent Ferrell to Washington, and that a large part of the recent success is due to the fact that Ferrell's successors at backstop are getting more stuff from the Boston pitchers.

How does Joe figure? How Joe has figured it out is a mystery. In eight years up there, Rick has generally been regarded as somewhat better than a green hand among the big time mask and pad boys. Yet Joe claims that the erudite Moe Berg, who was never good enough to take Ferrell's job, or Gene DeSauteles, fresh up from the minors, are bringing the business out of the throwers in better style.

It's that, and balance, Joe said

SIX STRAIGHT FOR PADRES

By the Associated Press

Third-place San Diego held the Pacific Coast baseball league spotlight today after registering its sixth straight league victory and third in a row over the Portland Beavers.

The Padres were only six games behind the league leading Sacramento Solons and three behind the San Francisco Seals as the season neared the halfway mark.

The first four teams in the race won their games yesterday. Sacramento walloped the San Francisco Seals for the second straight time, 9 to 4. Although badly out-hit, the San Francisco Seals defeated Seattle, 8 to 6. San Diego shellacked last year's champion Beavers, 13 to 7. Oakland errors

paved the way for a 5 to 4 Los Angeles victory.

Thompson's two-base hit climaxed a fifth inning, six-run scoring orgy by the Padres. The speedball specialist, for 15 hits. Seattle pounded Ed Stutz for 11 hits in the first four innings for only four runs while the Seals converted seven hits into five runs in the same innings.

Yanks Three Games Ahead

Since the Yankees, after spotting the St. Louis Browns six runs in three innings, came from behind to club out a 9-6 win, this defeat for the Tigers boosted the world champions' league lead to three full games, and left the third place Sox only one game back of Detroit. The White Sox, like every other club in the loop, had a lot of fun with the weak and woeful Athletics and posted a 7-2 triumph.

Chicago's Cubs retained their one game National league lead by banging out four hits for as many runs in an eighth inning splurge, to whip the Giants 10-5 in the "rubber" game of their series. The Cardinals bunched all their run-making into three big innings and trampled the Brooklyn Dodgers 13-3, thereby boosting their second place margin over the Giants to a full game.

Lou Fette, the new "old dependable" of the Bees, stopped the Pirates 9-6, ending Boston's 11-game losing streak, and the Cincinnati Reds took the Phillies' sixth-place standing by whipping the Quaker City clouters 6-4, with the aid of Lefty Lee Grissom's one inning rescue hurling.

Mrs. L. H. Robinson Triumphs in Golf

Mrs. L. H. Robinson was first, 40-7-33, and Mrs. Don Andrews second, 44-10-34, in best-nine hole play for women at the Santa Ana Country club yesterday. Only two three-par holes were used.

YESTERDAY'S STARS

BILLY HERMAN, Cubs—Hit homer, triple and single, driving in three runs in 10-5 win over Giants.

JOE CRONIN, Red Sox—His homer and triple sent in four runs, leading way to 9-0 defeat of Detroit.

BILL DICKEY, Yankees—Hit homer and two singles, driving in four runs in whipping Browns, 9-6.

The Padres were only six games behind the league leading Sacramento Solons and three behind the San Francisco Seals as the season neared the halfway mark.

The first four teams in the race won their games yesterday. Sacramento walloped the San Francisco Seals for the second straight time, 9 to 4. Although badly out-hit, the San Francisco Seals defeated Seattle, 8 to 6. San Diego shellacked last year's champion Beavers, 13 to 7. Oakland errors

paved the way for a 5 to 4 Los Angeles victory.

Thompson's two-base hit climaxed a fifth inning, six-run scoring orgy by the Padres. The speedball specialist, for 15 hits. Seattle pounded Ed Stutz for 11 hits in the first four innings for only four runs while the Seals converted seven hits into five runs in the same innings.

Yanks Three Games Ahead

Since the Yankees, after spotting the St. Louis Browns six runs in three innings, came from behind to club out a 9-6 win, this defeat for the Tigers boosted the world champions' league lead to three full games, and left the third place Sox only one game back of Detroit. The White Sox, like every other club in the loop, had a lot of fun with the weak and woeful Athletics and posted a 7-2 triumph.

Chicago's Cubs retained their one game National league lead by banging out four hits for as many runs in an eighth inning splurge, to whip the Giants 10-5 in the "rubber" game of their series. The Cardinals bunched all their run-making into three big innings and trampled the Brooklyn Dodgers 13-3, thereby boosting their second place margin over the Giants to a full game.

Lou Fette, the new "old dependable" of the Bees, stopped the Pirates 9-6, ending Boston's 11-game losing streak, and the Cincinnati Reds took the Phillies' sixth-place standing by whipping the Quaker City clouters 6-4, with the aid of Lefty Lee Grissom's one inning rescue hurling.

Mrs. L. H. Robinson Triumphs in Golf

Mrs. L. H. Robinson was first, 40-7-33, and Mrs. Don Andrews second, 44-10-34, in best-nine hole play for women at the Santa Ana Country club yesterday. Only two three-par holes were used.

This newspaper stands for a reunited people,
for independence in all things political,
and for honest journalism in its news and
editorial columns.

Santa Ana Journal

Published daily except Sunday by John P. Scripps Newspapers at 117 E. Fifth
Street, Santa Ana, Calif. Braden Finch, editor; E. F. Ellstrom, business manager.

Subscription rates: By mail, \$7.80 a year; by carrier, 65 cents a month; from
newsboys and news stands, 3 cents a copy. Entered as second-class matter May 1,
1935, at the postoffice of Santa Ana, California, under the Act of March 3, 1879.

Santa Ana's Finances Look Good

Santa Anans can feel free to wear a satisfied smile
these days over the fact that this is a pay-as-you-go city
with a balanced budget.

That is far more than the dwellers of many other
municipalities in this fair land can brag about.

Financial reports issued in the past few days by
City Auditor Lloyd Banks show that income is rolling in
heaviest in five years, that there is a cash surplus of
\$150,000 on hand and that the relatively small bonded
indebtedness is paid off.

When you consider that this sound and economical
situation prevails despite unexpected expenses for repairing
the outfall sewer and the five-cent slash in tax rate
last year, it is easy to conclude that our municipal
finances are well administered.

It is appropriate to point out here that the reports
and statistical tabulations issued by Auditor Banks excel
anything of the kind we have ever seen in the way of
clarity and brevity.

Frequently it is necessary to wade through a pile of
figures as high as KVOE's broadcasting pole in order to
get at the financial situation of some political subdivisions.

And when you finish wading you are still as far from
being across the gap as you were when you started.

Local taxpayers have a right to be glad that the
fiscal affairs of this city are thrifly administered. Such
economy lessens the cost of government—a cost that un-
fortunately is going crazy in the state and national
brackets.

More To This County Than Oranges

So far as we know, no one has ever disputed Orange
county's title of "the richest county per capita in the
world."

Lots of us accept the fact for granted, however,
without looking into the general pocketbook to see just
why or where the county has a right to the name.

So it is interesting—after reading for years almost
solely of our productive orchards—to take a peek, through
the medium of Uncle Sam's census department, into the
payrolls of various other industries in the county.

Drawing the biggest combined paychecks are the re-
tail clerks. Their net intake totaled \$3,674,000 in 1935,
the year for which the report was issued.

Next in line are the wholesale firm employees who
received \$3,168,000 during the same 12 months.

A total of \$2,271,000 went into the pockets of the
men and women engaged in manufacturing.

And other groups getting a big figure includes the
real estate brokers with \$750,000 and the miners with nearly
\$500,000.

There is a temptation often to feel that the quantity
and price of citrus alone determine the keynote of busi-
ness in Orange county.

This is not sound practice. Important as the orange
harvest is, there still are many other factors which go to
make up combined revenue of the fortunate residents of
"the richest county per capita in the world."

Government Censorship in Action

We have heard well-intentioned but misguided people
advocate government censorship of newspapers "to keep
them from printing things that are not true." So we want
to give you an example of how such censorship actually
operates.

In Berlin, the Nazi newspaper "Der Angriff" devoted
a full page to depicting John L. Lewis as America's "Red
Napoleon." A photograph of Mr. Lewis reclining in a chair
was captioned, "A picture which United States papers
were not allowed to print"—although it has been widely
circulated in an American magazine. Another was cap-
tioned, "Lewis shields his colleague, the female 'Minister
of Labor' of America, Perkins, from nosy photographers"
—although the woman in the picture is not Secretary
Perkins, but Mr. Lewis' daughter. A third, showing Mr.
Lewis seated beside Gen. Hugh Johnson, was captioned,
"At an anti-Nazi meeting, the trade-union leader is seen
with a high official of the government in the front row."

Many Germans, reading this phoney drivel, will get
a false impression of America.

In fact, the purpose of the Nazi censors was to give
them a false impression.

Uncensored newspaper—like The Journal—sometimes
unwittingly print things that are not true. But far more
harm is done when the national or local government sup-
presses the truth or compels publication of an untruth in
order to mislead the people.

Toy Libraries Aid Youngsters

A novel and heart-warming experiment is under way
in this county in the toy lending libraries sponsored by
the National Youth administration.

The program—which already includes a library at
Santa Ana—is branching out to take in Orange and Hunt-
ington Beach and later other parts of the county.

It calls for the establishment from relief funds of
centers where girls and boys can come in and borrow toys.
They must return the toys in good condition at the end
of a stated period, and they may take them out again if
they wish.

If a child is unusually "good" to a toy, he may
"adopt" it for keeps, we understand.

The idea no doubt will draw a grumpy snort from
many citizens who will exclaim: "Boondoggling!"

But if it is boondoggling, it is boondoggling of a better
kind.

For not only does the toy library give employment to
those on relief, but it adds to the joy and pleasure of
little ones whose parents are unable to buy them play-
things of their own.

If this is a crime and a waste of money, then Christ-
mas is an extravagance and somebody should shoot
Santa Claus quick before the custom of giving happiness
spreads to other lands or days.

NEW YORK.—Thoughts while

querade comes to life. Tony Canzoneri,
Leland Hayward's cable address is
"Haywire." Most distinguished hotel
architect: The Vanderbilt.
Even spellmasters give the spell-
ing troussaux, the plural form.
Add irritating radio assumption:
"And here's your old friend Bill

touched off the white dinner jacket
with black lapel flower vogue.
You can take almost all of the
bands if you'll leave me Russ Mor-
gan's. Mrs. Lucius Boomer is a
striking red head, too.

A strange theory an old crime
hunter advances for New York's
sex crimes. Blames the town's im-
modesty. Too many women dis-
robing with blinds up. No old time
song gives me the tingle of "Wait-
ing for the Robert E. Lee." Ernest
Hemingway in a white coat would
make a plump and jolly looking
butcher.

What's become of Elsie Janis?
Stars with expressionless faces off
stage: Helen Hayes, Katharine
Cornell and Tallulah Bankhead.
Nothing so forlorn as a bird dog on
a leash along Fifth avenue. Still
top in the Good Looking Newly
Wed's Sweepstakes—the William
Rhineclander Stewarts.

Striking example of roughshod
will to power: John L. Lewis. Not
many have had more fun running
a hotel than Frank Case. Unless
perhaps Vincent Astor. Some oth-
ers who seem to enjoy their jobs
with a whoop: Major Bowes, Al
Smith, James Farley and George
Abbott. New Broadway slang:
You're full of irium!

Only those who have seen Bill
Robinson performing for his own
people have seen him really "going
to town." He needs a loose plank
floor, unbuttoned collar, and one
get-ar to keep time to the jiggy
plantation lament: "Goose drinks
water, hen drinks wine, old hen
cackles and the rooster keeps
time." The Mona Lisa, smile and
all, is to me just another head of
an ordinary looking Italian wom-
an. I can't eat out of a cracked
dish. The old ground-glass phobia.

Visitors to Robert Ripley's is-
land estate off Manhattan rock with
a drawbridge to the moated castle
get a big kick out of his Gufa host,
which he brought back from Bag-
dad. The Gufa is a round wicker-
work affair used, on the lower Ti-
gris and Euphrates. It is the old-
est form of boat, in the world,
made of dried palm fronds and
coated with pitch with the abut-
ment. They can be made as small
as clothes baskets or as wide as 30
feet. Noah's Ark was supposed to
have been a super Gufa with a
roof. Gufas can carry enormous
weight without upsetting but it
takes skill to paddle them about.
All visitors to Bagdad like to Gufa
down the Tigris at sundown, tak-
ing their chairs from their hotel
verandas. There they may see un-
expected views of Bagdad. Domes,
minarets, waving palm fronds, men
baiting rat traps, and a host of
gold. Song title suggestion: "In
my super Gufa with a Ruffa."

No wonder so many strive to be-
come successful fictioneers. Fannie
Hurst's literary career began in
New York selling stories to Bob
Davis at \$25 per yarn and then
today she is receiving \$100,000 for
Hollywood rights to her latest novel.
Today she is writing another novel
in the luxury of a magnificent
suite overlooking the Grand Canal
in Venice. Miss Hurst is one of
the most frequent novelist visitors
to the White House. And with it
all it might be added is one of the
most indefatigable workers among
the scribes. Her invariable rule
is to rise at 6:30, take an hour's
walk, drink a cup of black coffee
and work steadily at her typewriter
until 1 o'clock. Then she goes to
her desk and tries to think of
her work after she has finished
for the day. She has a colored girl
secretary who has been with her
12 years. Twice a week she and
her husband still dine in family
and, although maintaining sepa-
rate apartments, are devoted.

Another literary success of
quicker arrival is Dorothea
Brande. She did "Wake Up and
Live" as a lecture several years
ago more for a lark than anything
else. She broke her shyness over
public speaking. It took on and
she repeated it several times. Then
she was asked to put it into a
book. Five publishers turned it
down before one accepted it. When
it reached its 50,000th sale it gave
her a \$1,000,000. The money
paid her \$25,000 just to use the
title. And any publisher would
grab at anything she turns out.

Love in bloom: My favorite
blonde waitress in a hurry up place
on Lexington avenue was flirty
when I dropped in for a snack to-
day. She seemed to be trilling all
over the place. Finally she con-
fided: "Isn't it great to have the
right sort of boy ask you that
certain question?" And her en-
thusiasm was so contagious on my
way across town home I had a few
skips—lumbago be damned—my-
self.

One Man's Opinion

By X REPORTER
ON EXPLORING

Everybody knows that he
mustn't covet anything his neigh-
bor may possess, and yet when I
walked into my lawyer friend's
office for the first time I had a
pretty difficult time of it.

Of all the pluperfectly gor-
geous vistas from anybody's work-
ing window, his takes all the
prizes. It is high above and yet
close to a broad body of matchless
blue water, on the surface of
which come and go big ships from
the world around.

Gleaming white and silver ferry
boats glide in and out of his view
at stated intervals all the day
long. Occasionally a tiny white
sail zigzags across the blue as
some errant yachtman cuts
across the paths that lead to deep
ocean and to all ports of the
world.

"Yes," said my affable lawyer
friend as I told him of my strug-
gle against covetousness, "it is
good to be able to turn from the
troubles of a world full of human
beings and gaze out upon such
calm and majestic glory as that."

True, I agreed, and added that
I thought I might be ever so much
better at my work if I could just
turn to such a window at any
time during the day that pleased
my fancy.

It is his window, though; not
mine. And still, I thought, that
view that must be always inspir-
ing and always sublime, cannot
be bottled up or circumscribed.
There's a hill not so very far
from my own office window. The
hill, at points, looks out upon the
very same body of water that my
lawyer friend enjoys.

One day when my own desk
seemed overlaid with woe, and
when the view of a parking lot
across the street and the brick
sides of a couple of apartment
houses ached my soul, I went up
that hill in search of a marine
view of my own.

Even seeking is part of finding,
the philosophers say. And I not
only sought but found. A five-
minute jaunt took me to an emi-
nence of public opinion. The view
that revealed that of the lawyer's
window.

Five minutes to absorb the
view, five more to walk back to
my office, 15 minutes invested in
exploration—and a new world was
mine.

The Mailbag

Public opinion, or what somebody
in office imagines to be public op-
inion, is our ruler. If public opinion
is active, the politicians and people sit
up and take notice. There is a defi-
nite need for a more open and
honest public opinion. Honest,
intelligent, fair discussion of our
problems is immensely useful to
every citizen who has his say
and contributes to the formation of
public opinion. The Journal invites
letters to The Mailbag.

WARNING TO DOGS

To the Editor: I was very in-
terested in an article, "How One
Man Thinks," that appeared in
a recent edition of The Journal.
Mr. X Reporter referred to
a town, which he knew, that was
being blessed by an all-around
cleansing of the town dogs due to
a rabies scare which some distant
plague was responsible for.

Mr. X, however, was more for-
tunate than I in having obtained
advance information of this ridi-
culous; he kept his animal chained
to a wire and thereby enabled the
pet to elude the humanitarian
pharmaceuticals of a few gun-wielding
philanthropists.

It's a fine thing to be a citizen
of such an alert and willing popu-
lace. I was particularly proud of
the way a warning to prevent the
canine population of our fair city
from mingling with people and
other animals was made clear to
all (or was it?).

I, being a boy, loved my dog
with all the traditional adoration
of a boy. So you can imagine how
pleased I was to be awakened last Sun-
day and instead of the eager face
which was usually there waiting
to bring up the morning paper, I
saw nothing; nor did my frantic
calling, my watchful waiting or
never-dying hope bring about the
appearance of that little black
dog next day, nor the next, nor
the next.

She is gone.
I have very good reason to be-
lieve, through evidence that I have
picked up, that she was the vic-
tim of a kind of human chivalry
—death, at the hands of one of
our town's more active members.

Now it is not that I care one
wee bit about losing my dog that
I am writing this to you; my no!
She was only a member of our
household for five years, the be-
loved plaything of my little sis-
ter, the pal of the neighborhood
children and the trust friend a
boy could have.

I am writing this to you with
the hope that you will make it
possible for some gun-toting soul,
who does not seem to care to re-
veal his identity, to lean a little
further back in his chair and to
gloat over the good he has done
for his community.

Make Way
For an
Illinois Car!

By
Westbrook
Pegler

CHICAGO, Ill.—Illinois, as you
might have supposed, is one of the
eight backward states in the happy
American union whose motorists
are not required to meet any tests
as to their physical or mental fit-
ness for mechanical ability, but
may just hop in and drive.

A legless or armless man, a par-
alyzed man, a known lunatic, a
person totally blind or one who
has never before sat behind the
wheel of a car has a legal right to
pull out into the traffic in town
or country, because there happens
to be no license law on the books.

The subject is one of particular
interest at the moment because
there is a bill up in the legislature
providing a rather mild form of
regulation. The bill is about to be
licked, because of a politicians'
wangle over the patronage or jobs
or graft which the new bureau
would provide.

NOT MUCH OF A LAW

It isn't much of a law to be sure,
because it gives the superintendent
of highways permission to issue
licenses without examination to all
applicants who ask for them prior
to next New Year's day. That
would protect the driving privilege
of all those who are driving now,
and, indeed, of all others, who
think they might want to drive at
some future time, but feel bashful
about their qualifications. It is a
typical Illinois law designed to do
the least possible good, while pro-
viding the maximum number of
licenses to politicians under the cir-
cumstances.

Originally the bill provided that
administration of the law should
be placed in the hands of division
of highways of the department of
public works and buildings. The
directors of public works and build-
ings is R. Lyndon Smith, who was
Governor Horner's campaign man-
ager in his fight with Ed Kelly, the
mayor of Chicago, so the jobs,
under that proposal, would be Hor-
ner's jobs to be distributed by Mr.
Smith.

The bill carried an appropriation
of \$750,000 to set up the bureau
hire special highway police and
examiners and so forth, and was
passed by the lower house of the
legislature.

ECONOMY NOT REASON

When it went to the senate, how-
ever, it was amended to turn over
the new department to the secre-
tary of state who is Mr. Kelly's
fellow, and the appropriation was
cut to \$375,000, just half. I did
hear why the appropriation was
reduced, but it is a long story, and
you need only be assured that
economy was not part of the reason.
Or more likely, you don't need
telling.

So now the bill is back in the
house again, and the boys are try-
ing to get together on a political
compromise, but the time is short,
and the probability is that they
will disagree and leave their sub-
jects still unprotected from crazy
drivers of all kinds, which would be
no great hardship, because the
people are used to the hazards of
the road.

However, for the safety of citi-
zens of other states it might be
wise to point out to the back-
ward states in this respect, which
are Illinois, Florida, Louisiana,
Mississippi, Missouri, Oklahoma,
South Dakota and Wyoming. When
you see a car in traffic bearing
license tags from one of those it
is not to be remembered that the
driver may be an imbecile, more or
less blind, an absolute novice or
otherwise dangerous to life, limb
and navigation.

THEY CAN DRIVE HERE

Wyoming did pass a license law
this year, but it was disqualify-
ing on a technicality. Tennessee
and New Mexico passed valid laws
and withdrew from the dwindling
company of the backward states, but
unlicensed and unqualified drivers
from Illinois and the seven other
primatives still have the privilege
under reciprocal arrangements of
driving cars in the progressive
states such as New York, New
Jersey, Connecticut and the rest.

There is, needless to say, no in-
dignation among the citizens of
Illinois. The public, personally,
is not to be bothered by regu-
lation and the necessity for
carrying license certificates. And,
anyway, from long experience, the
citizens quickly spotted the pro-
posed act as no attempt to reduce
the dangers of the road but merely
as a bill to provide jobs for de-
serving Democrats administering,
in the quaint, discriminating Illi-
nois manner, a law intended to do
no public good.

Even if by some political miracle
the bill should pass, it would be
well to remember that it doesn't
actually compel Illinois drivers to
take any mental or physical test
and to give them plenty of road-
room wherever the Illinois license
is seen.
